Join the Innovus® Evolution

More Global

Innovus® has always offered the most contemporary colours and finishes, but the latest collection incorporates even more - more products, more finishes and a comprehensive range of special products. The Innovus® collection is now the only tool you need to find solutions and inspiration for your creative and production needs.

More Creative

With over 250 decorative choices, and the inclusion of Innovus® Essence, Innovus® Coloured MDF and special products including Innovus® Colour Boom, and Innovus® Unicolor, the complete Innovus® collection offers you unlimited options to inspire to create more.

Do more with Innovus®

Rejoignez l'évolution Innovus®

Plus globale

Innovus® a offert par le passé déjà une multitude de couleurs modernes et des finitions diverses. La nouvelle collection incorpore bien davantage – plus de produits, plus de finitions et une gamme complète de produits spéciaux.

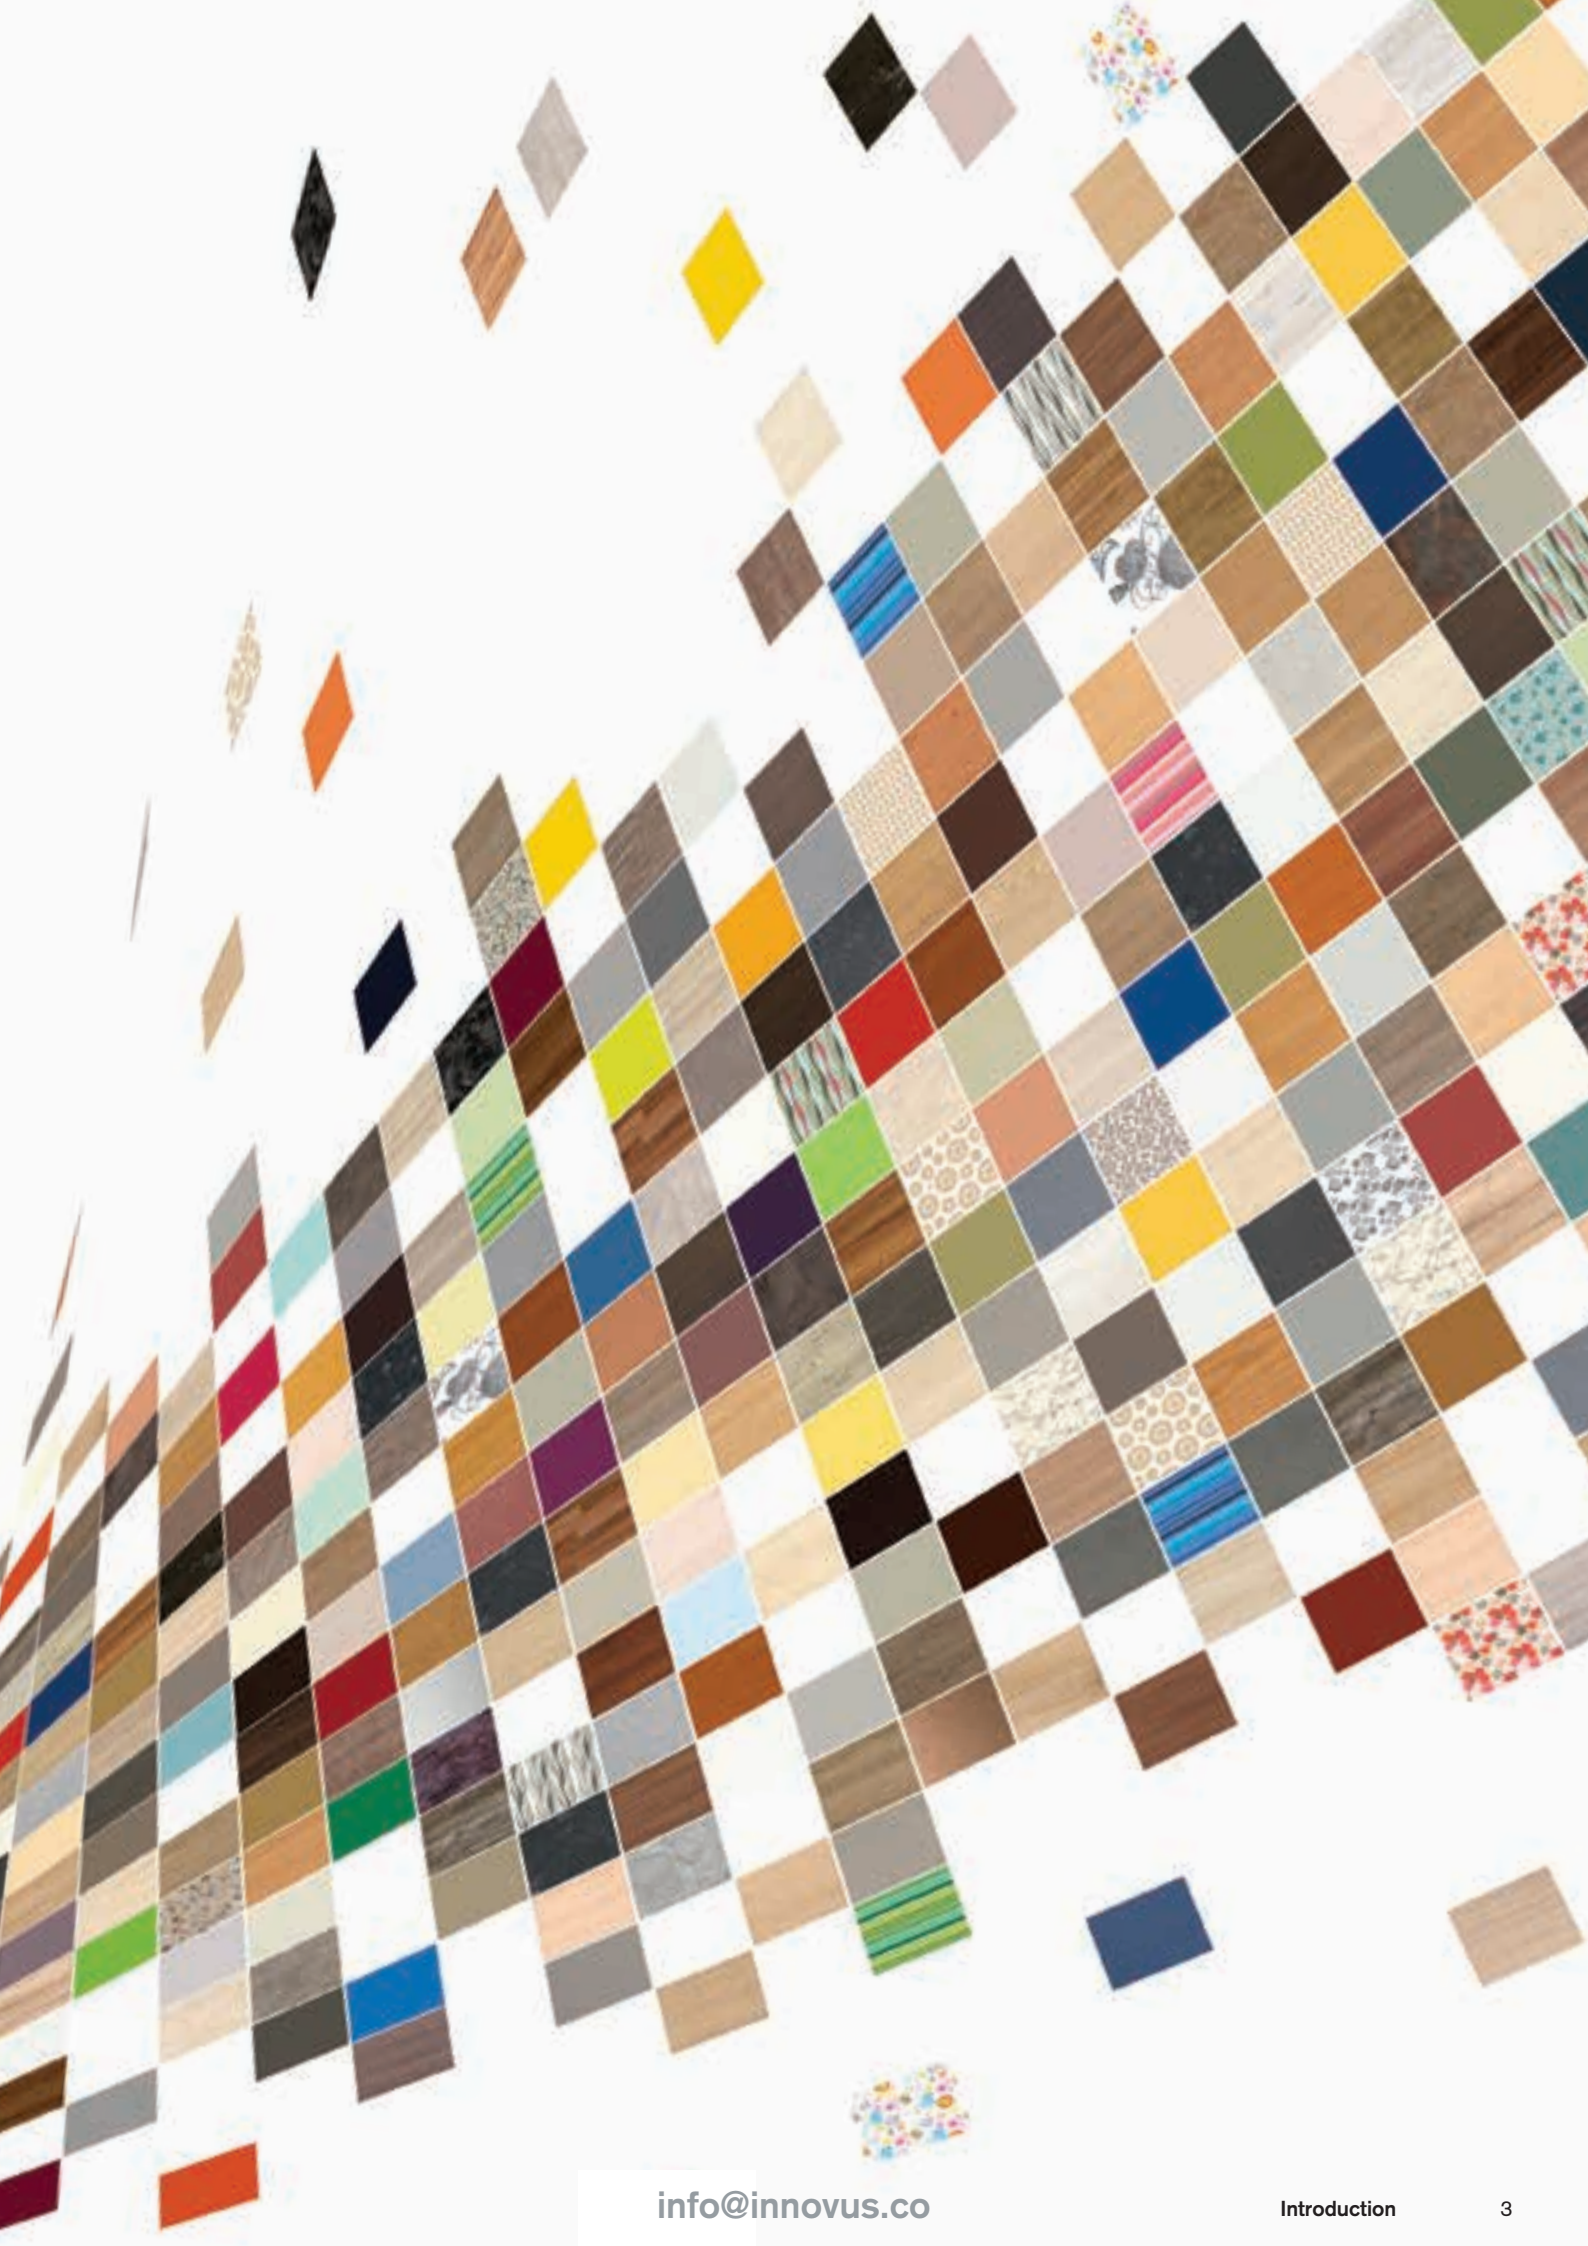

La collection Innovus® vous permet dorénavant de tout trouver pour combler vos attentes créatrices et votre productivité.

Plus créative

Avec plus de 250 choix décoratifs et l'intégration d'Innovus® Essence, Innovus® Coloured MDF et produits spéciaux y compris l'artifice de couleurs avec Innovus® Colour Boom, et Innovus® Unicolor, cette gamme Innovus® vous offre des options et choix illimités.

Decorative Products

Innovus[®] has always been your creative partner, providing imaginative solutions for your projects.

Now, with the global Decorative Products range, you have even more opportunity to specify and use Innovus[®] products consistently.

Our Special Products are available in the same decors and finishes as our global range of boards, laminates and compacts, which means you can use them in more situations than ever.

The following pages give an overview of the new Innovus[®] Special Products and their uses.

Innovus[®] a toujours été votre partenaire créatif, en vous proposant des solutions imaginatives pour vos projets.

Dès à présent, avec cette gamme globale de produits décoratifs, vous avez encore plus d'opportunités de préciser et d'utiliser systématiquement les produits Innovus[®].

Nos produits spéciaux sont disponibles dans les mêmes décors et finitions que notre offre globale de panneaux, stratifiés et compacts, permettant leur utilisation combinée dans différentes applications.

Les pages suivantes donnent une vue d'ensemble des nouveaux produits spéciaux d'Innovus[®] et leurs utilisations.

Innovus® Essence

Innovus® Essence is the new range of decorative panels which goes back to the origins of wood to bring to you the texture, the look and feel of real wood in a melamine surfaced panel.

Presented in 2 structures: **Rustic** - a natural and strong Oak-inspired texture available in four different wood shades and **Authentic** - an elegant and contemporary Elm-inspired texture available in five different wood shades.

The Innovus® Essence range also includes 10 carefully selected unicolours, presented with a Rustic structure, offering a decorative solution with the look and feel of painted solid wood or painted veneered panels.

Innovus® Essence est la nouvelle gamme décorative qui remonte aux origines du bois pour vous apporter la texture, l'apparence et la sensation du bois véritable pour un panneau mélaminé.

Présent avec 2 structures: **Rustic** – le chêne fort et naturel – sa texture est disponible et inspirée par quatre teintes de bois différentes et **l'Authentic** – l'orme élégant et contemporain – avec une texture disponible et inspirée par cinq nuances de bois différentes.

La gamme Innovus® Essence présente également 10 couleurs unies soigneusement sélectionnées avec une structure Rustic, offrant une solution décorative avec l'apparence de bois massif verni ou de panneaux plaqués peints.

Innovus® Coloured MDF

Innovus® Coloured MDF is a robust, versatile through-dyed board that is consistent, light-fast and easy to work with.

Let Innovus® Coloured MDF, with its 6 trendy colours, inspire your designs and make your spaces for work, and play, beautiful.

Innovus® Coloured MDF est un panneau médium teinté dans la masse, résistant aux UV, robuste, homogène et facile à travailler.

Avec ses 6 couleurs tendances, laissez libre cours à vos inspirations et vos créations avec Innovus® Coloured MDF, pour embellir vos espaces de travail et de détente.

MF Innovus® Coloured MDF

MF Innovus® Coloured MDF is the perfect combination between our trendy melamine decors and the robust and versatile through-dyed MDF boards.

The use of our Innovus® Coloured MDF boards in applications such as architectural and interior design, contemporary furniture, shop fitting, deep routed decorative elements, counter tops with profiled edges and wall panelling is taken to an all new level now it is surfaced with Innovus® decors.

Innovus® Coloured MDF mélaminé

Innovus® Coloured MDF mélaminé est l'association parfaite entre nos décors mélaminés tendances et les panneaux médium teintés dans la masse, robustes, pour une utilisation polyvalente.

L'utilisation de nos panneaux Innovus® Coloured MDF dans des applications telles que la conception architecturale, l'aménagement intérieur, le mobilier contemporain, l'agencement de magasins, les éléments décoratifs usinés, la réalisation de comptoirs avec chants profilés ou d'habillages muraux vont prendre une toute nouvelle dimension avec ces nouveaux revêtements de la gamme décors Innovus®.

Innovus® Sandwich Panels Laminates

Innovus® Sandwich Panels Laminates is a particleboard with bonded laminates on both sides of the board.

Suitable for high-traffic public environments, it combines the surface performance of a laminate with the readiness of a finished decorative board.

Innovus® Sandwich Panel Laminates est un panneau de particules avec des stratifiés collés sur les deux faces.

Adapté aux lieux publics très fréquentés, il combine la performance de surface d'un stratifié et les exigences d'un panneau décoratif fini.

Innovus® Sandwich Panels MFC

Innovus® Sandwich Panels MFC are a melamine decorative board with improved abrasion resistance.

Through the incorporation of three underlay sheets, plus a decorative layer, we are able to obtain a Class 3A in abrasion resistance and provide a product designed for more demanding horizontal applications (table tops and counter tops).

Innovus® Sandwich Panels MFC sont des panneaux décoratifs mélaminés avec une très bonne résistance à l'abrasion.

Grâce à l'incorporation de trois feuilles de sous-couche, plus une couche décorative, nous sommes en mesure d'obtenir une classe 3A en résistance à l'abrasion et ainsi, de fournir un produit conçu pour des applications horizontales des plus exigeantes (dessus de table et comptoirs).

Innovus® High Gloss

Innovus® High Gloss is the range of laminates with a mirrored effect for contemporary and unique applications, in both vertical and horizontal uses.

High gloss continuing to be a key trend in furniture and interior design. Our High Gloss texture will make your project shine brighter.

Innovus® High Gloss – its more than a texture, its a distinctive product.

Innovus® High Gloss (haute brillance) est la gamme de stratifiés avec effet miroir pour des applications uniques et contemporaines, en utilisation verticale et horizontale.

La haute brillance est la tendance clé du design intérieur et du mobilier. Notre High Gloss apportera la touche supplémentaire pour rendre votre projet bien plus lumineux.

Innovus® High Gloss – est plus qu'une texture, c'est un produit distinctif.

Innovus® Digital

Innovus® Digital is the perfect solution to make your ideas come to life.

Personalization is a key element both in public and domestic decoration, making Innovus® Digital the ideal solution for a unique laminate or compact.

Innovus® Digital – Your Idea, Our Product.

Innovus® Digital est la solution idéale pour donner vie à vos idées.

La personnalisation est un élément clé dans la décoration des lieux publics et domestiques, faisant d'Innovus® Digital la solution idéale pour un stratifié ou compact unique.

Innovus® Digital – Votre idée, notre produit.

Innovus® Lamifloor

Innovus® Lamifloor is a range of laminates with improved abrasion resistance for flooring applications.

Available in class resistance AC3 and AC5 - domestic and commercial use with heavy traffic. The laminates also have anti-static properties.

Innovus® Lamifloor – Maximum Resistance, Elegance and Comfort.

Innovus® Lamifloor est la gamme de stratifiés avec une résistance améliorée à l'abrasion pour des applications comme revêtement de sol.

Disponible en classe de résistance AC3 et AC5 – pour un usage privé et commercial à trafic intense. Les stratifiés possèdent des propriétés antistatiques.

Innovus® Lamifloor – résistance, élégance et confort maximum.

Innovus® Unicolor

Innovus® Unicolor is a range of laminates with a matching core and surface colour. This allows it to be used without the need for edge banding.

Unicolor, with its solid colour throughout, is the ideal laminate for use in high traffic areas without the need for edge banding.

Innovus® Unicolor est une gamme de stratifiés avec un noyau assorti à la couleur de sa surface. Ce qui supprime l'utilisation des bandes de chant.

Unicolor avec sa couleur résistante dans tout le matériau, est le stratifié idéal pour une utilisation à trafic intense, sans la nécessité d'une bande de chant.

Innovus® Colour Boom

Innovus® Colour Boom is a range of laminates with different colour layers. This allows you to mill it in different thicknesses, designing your own 3D panel.

Discover how easy it is to re-invent a wall, a door or a piece of furniture using a laminate surface that can be milled showing different colours and turn any area into a contemporary and distinctive space.

Innovus® Colour Boom est une gamme de stratifiés avec une âme de couleur différente qui vous permet de concevoir votre propre panneau 3D en le fraisant dans son épaisseur.

Découvrez comme il est facile de réinventer un mur, une porte ou un meuble en utilisant une surface de stratifié qui peut être fraisée pour laisser apparaître différentes couleurs et ainsi transformer n'importe quel secteur en un espace contemporain et unique.

Innovus® Magnetic

Innovus® Magnetic is a range of laminates that can be used for sticking magnets to as well as being used to write on with markers or chalk.

This functional and decorative solution is ideal for partitions and wall coverings for shops, offices, schools, and nurseries and even at home.

Innovus® Magnetic est une gamme de stratifiés magnétiques permettant d'aimanter des supports. Il est également possible d'y écrire à l'aide de marqueurs ou de craies.

Cette solution fonctionnelle et décorative est idéale pour les cloisons et revêtements muraux pour les magasins, les bureaux, les écoles, les crèches et même à la maison.

Innovus® Labgrade

Innovus® Compact Labgrade is a high pressure compact laminate with high mechanical strength and high resistance to harsh chemicals, thus the ideal solution for the most challenging environments such as chemical laboratories, hospitals and healthcare facilities.

Labgrade is a durable and versatile solution as through the usage of Electron Beam Curing (EBC) its surface has a higher resistance to chemical agents which leads to higher stain resistance and hygiene. Due to the use of EBC technology, Innovus® Compact Labgrade has better performance with regards to chemical resistance, hygienic properties, easier cleanability and mechanical stability.

Innovus® Compact Labgrade est un stratifié compact haute pression avec une résistance mécanique élevée, ainsi qu'une haute résistance aux produits chimiques corrosifs. C'est la solution idéale pour les environnements les plus complexes comme les laboratoires de chimie, hôpitaux et établissements de soins en santé.

Labgrade est la solution durable et polyvalente via l'usage par polymérisation par faisceau d'électrons (procédé EBC) sa surface a une résistance supérieure aux agents chimiques, ce qui conduit à une plus grande résistance aux taches et en matière d'hygiène. En raison de l'utilisation de la technologie EBC, Innovus® Compact Labgrade a de bien meilleures performances en ce qui concerne la résistance chimique, les propriétés d'hygiène, plus de facilité de nettoyage et une meilleure stabilité mécanique.
