# WELCOME TO ARNOLD LAVER

WE HAVE A VISION TO  
‘HELP OUR CUSTOMERS  
TO BUILD WELL, USING  
SUSTAINABLE  
MATERIALS.’

Arnold Laver is a progressive and  
innovative family-run business which has  
been in operation for almost 100 years.

A major force in the UK timber industry  
with a national network of thirteen  
depots, we aim to provide the best timber  
and timber-based products available.

## Our Mission

‘TO BE THE FIRST  
CHOICE SUPPLIER  
FOR CERTIFIED  
TIMBER AND  
TIMBER-BASED  
PRODUCTS IN THE  
UK BY MAKING IT  
EASY FOR OUR  
CUSTOMERS TO  
TRADE WITH US.’

Andrew J Laver  
Managing Director

# ABOUT US

## ARNOLD LAVER IS FOCUSED AROUND THE FOLLOWING AIMS:

### Customers

Keeping our customers' needs at the heart of our business - they are the driving force behind everything we do.

### Staff

Training our staff to the highest possible standard through the Arnold Laver Training Academy. Our employees are the source of our strength and the foundation of our knowledge, determination and success.

### Products

Staying at the forefront of our industry for both quality and innovation with our products. Our stock range cannot be beaten and we endeavour to support this by constantly reviewing our product offer, through research and development and evaluating new materials as they come onto the market.

### Service

Providing an excellent service to all of our customers in a timely and efficient manner. This is made possible due to our large, well-stocked, strategically located Depots and our own fleet of delivery vehicles.

### Our Services

In order to accommodate both smaller production runs and orders much larger in size, we have milling facilities at all of our regional locations. In addition, our National Production Centre, based at Mosborough Sheffield, produces all of the standard stock for the entire Group. Therefore economies of scale can be passed on to our customers, who can be assured of a fast turnaround, excellent quality and a service that's unrivalled anywhere in the UK.

### Manufactured by Laver

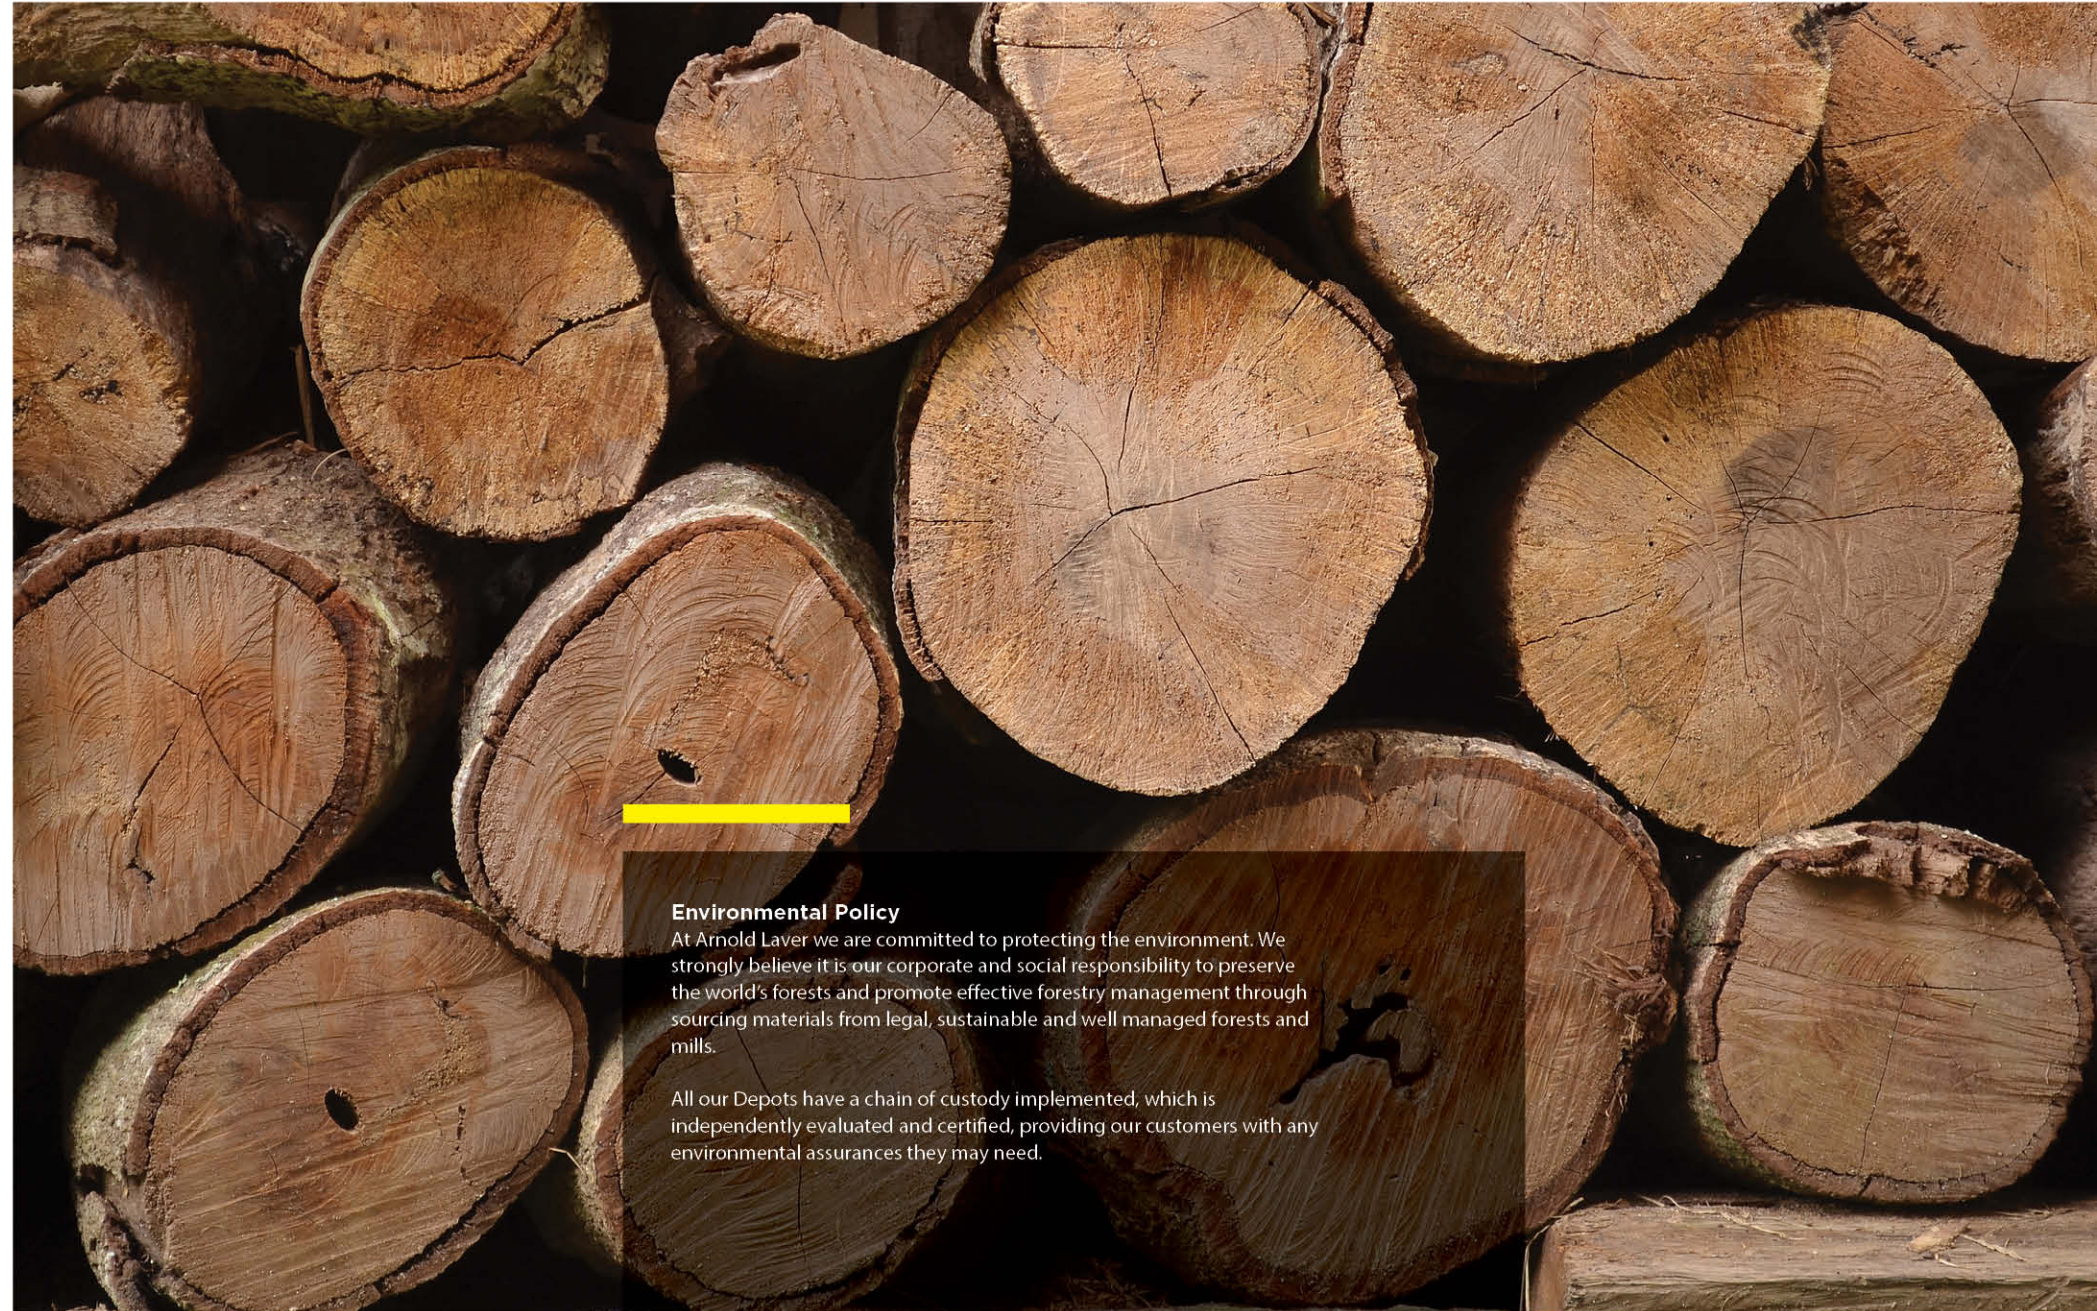

As well as being a leading importer and distributor of premium products, we also provide manufacturing services that we like to think add real value to our customers' supply chain. These include:

- Timber Machining and Profiling
- Timber Treatment and Finishing
- Panel and Component Fabrication
- Door and Door-set Production
- Roof-trusses and Spandrel Panels
- Engineered Floor Systems

### Environmental Policy

At Arnold Laver we are committed to protecting the environment. We strongly believe it is our corporate and social responsibility to preserve the world's forests and promote effective forestry management through sourcing materials from legal, sustainable and well managed forests and mills.

All our Depots have a chain of custody implemented, which is independently evaluated and certified, providing our customers with any environmental assurances they may need.

# SOFTWOOD

Softwoods are renowned for their versatility and strength. Sourced from all over the globe, with a large breadth of applications and a remarkably aesthetic appeal, softwood can be used across a broad range of internal and external projects - from furniture and flooring, to decking, landscaping, external joinery and structural applications.

Arnold Laver provides the broadest and most comprehensive range of softwood species and grades to cover all your timber requirements.

A core range of softwoods is held in stock at all branches, backed up by daily supplies from our National Distribution Centre.

As well as standard products, we also manufacture to order, with machining, grading and treatment facilities available group-wide.

Because of our long-standing partnerships with the global leaders in softwood production, we can give our customers consistently high quality products, together with sound environmental credentials, including full Chain of Custody status and FSC®, PEFC™, SFI, CSA, and MTCC Certification.

## Our Key Products

**Carcassing:**  
Sawn, Graded, Treated and Untreated.

**Sawn Redwood:**  
Unsorted, Fifths, Joinery Grade, Battens and Fencing.

**Planed Square Edge (PSE):**  
Redwood and Whitewood

**Cladding:**  
Softwood, Pre-Painted and Shingles.

**Softwoods Clears:**  
Cladding and Mouldings

**Modified Softwood:**  
Accoya

**Decking:**  
Standard, Anti-slip and Sleepers.

**Species available:**  
Cedar, Douglas Fir, Hemlock, Larch and Pine.

# HARDWOOD

Hardwood is the ultimate versatile material, with applications ranging from furniture production, musical instruments, flooring, construction and boat-building. It is a material of real beauty, available in countless combinations of species, specifications and colours.

Our experience in hardwood, gained over decades of meeting the exacting timber requirements of companies and individuals, is your guarantee of satisfaction. Whatever your hardwood requirements, we'll work with you to ensure that you get the most appropriate hardwood timber product at the best possible price.

At Arnold Laver, we carry what we believe to be one of the widest timber and timber-based product ranges in the UK, and we pride ourselves on the high standards of our materials. We aim to be able to meet virtually any hardwood requirement from stock. But when we can't, we'll source it specially. We also offer a full machining service and can supply everything from simple lengths of timber to intricate mouldings.

We also supply hardwood engineered products including Hardwood substitute Accoya and European Oak.

Hardwood substitute Accoya: Hardwood substitute Accoya is a class-leading product, with a 60 year service life guarantee. It is manufactured using a proprietary acetylation process and uses fast growing timber - such as Radiata Pine - from sustainable sources. Outstanding dimensional stability together with an improved resistance to insect attack and moisture, help to deliver a very robust timber.

Our innovative European Oak Engineered range is specifically designed for use in the manufacture of high quality stairs. The range includes engineered newels, strings and handrail/baserail blanks. Spindles blanks and treads are also available to order.

| Our Hardwood Range               |                        | Other Hardwoods available      |

# PANEL PRODUCTS

WE ARE EXPERTS IN SUPPLYING PANEL PRODUCTS. OUR KNOWLEDGEABLE EMPLOYEES HELP ENSURE THAT THE RIGHT PRODUCT IS SPECIFIED AND SUPPLIED FOR EACH CUSTOMER PROJECT.

**PLYWOOD**

We stock one of the best ranges of quality Plywood panels in the UK, providing our customers with great choice and value for money.

Our Plywood range includes:

- Coniferous Plywood
- Birch Plywood
- Marine Plywood
- Bendy Plywood
- Veneered Plywood
- Hardwood Plywood
- Poplar Core Plywood
- Fire Retardant Plywood
- Blockboard
- ToughPly
- Grada Plywood

**MDF**

We stock MDF from all the major manufacturers, including Finsa, Medite and Norbord.

Our MDF range includes:

- Standard MDF
- Lightweight MDF
- Ultralight MDF
- Moisture Resistant
- Zero added formaldehyde
- Deep-route
- Melamine face boards
- Flame Retardant - Class B, Class C
- Medite® Tricoya® Extreme
- Machined MDF Panels

**FORMWORK**

Concrete forming panel products from Arnold Laver are designed to allow you to achieve an efficient and effective finish on all of your formwork projects.

We are specialists in this sector and can provide all the help and advice you need.

Our range of specialist engineered panels includes:

- Laver Formwork Plywood MDO
- Pourform 107, Evergreen MDO
- Tulsa G1S, MDO, HDO
- WISA - BETO, SLAB, MDO, GIS

**CHIPBOARD**

Our knowledge and experience with chipboard panels is second to none. We have large stocks of all key chipboard products, available on a short lead-time.

These include:

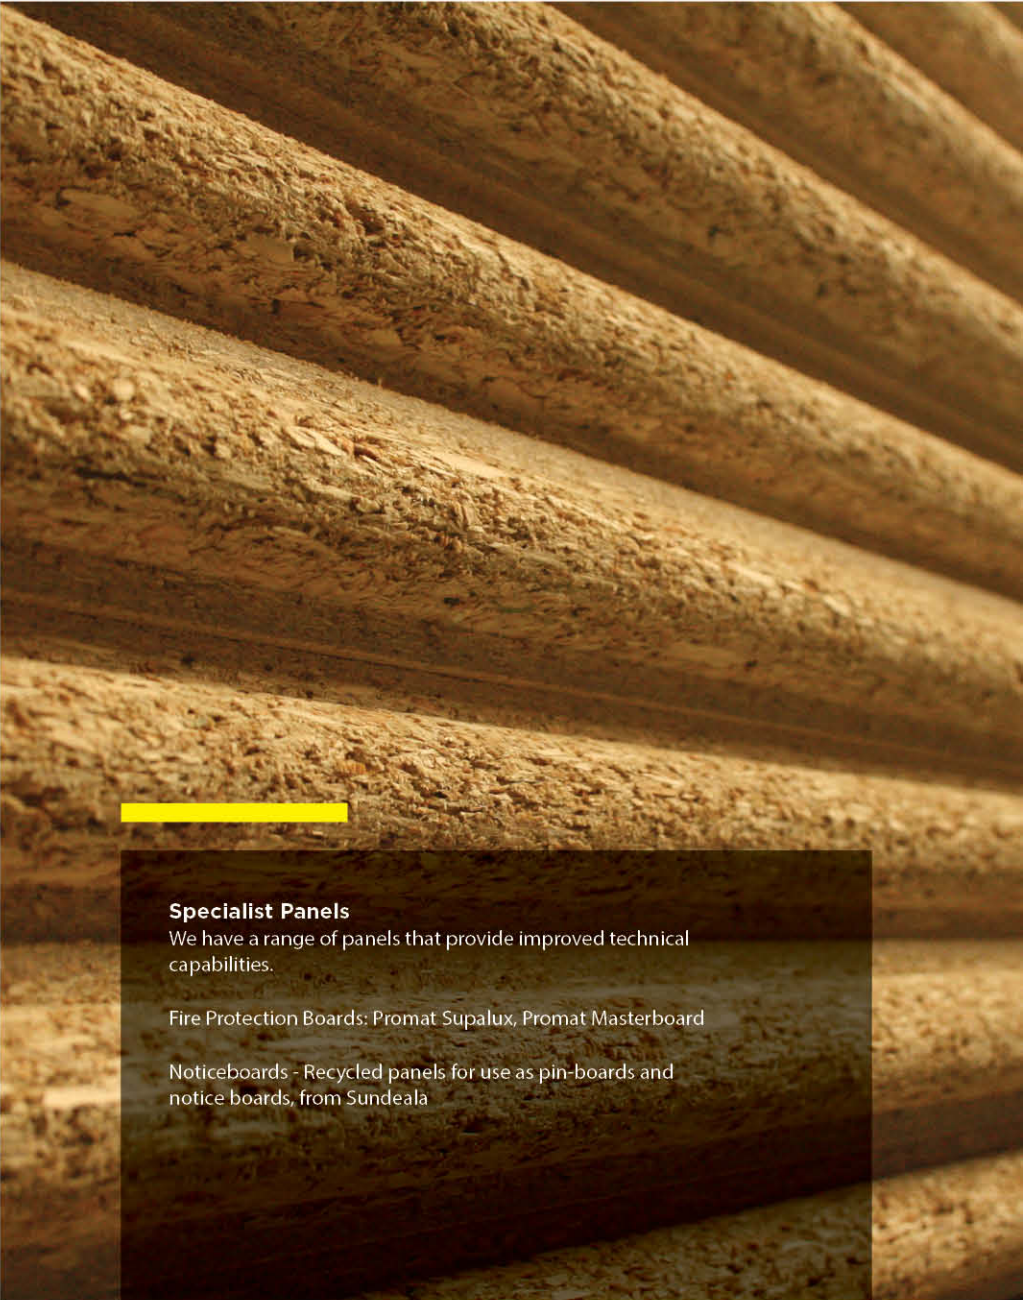

- Merchant grade
- Furniture grade
- FR Euro class B
- FR Euro class C
- Decorative panels
- Plus, specialist Flooring grade boards, such as:
- Moisture resistant
- Peel Clean
- Heavy-duty Mezzanine
- SuperPan

**Specialist Panels**

We have a range of panels that provide improved technical capabilities.

Fire Protection Boards: Promat Supalux, Promat Masterboard

Noticeboards - Recycled panels for use as pin-boards and notice boards, from Sundeala

# JOINERY PRODUCTS

**WE OFFER AN EXTENSIVE PRODUCT RANGE FOR ALL TYPES OF INTERIOR JOINERY, FOR USE IN BOTH COMMERCIAL AND DOMESTIC APPLICATIONS.**

## Our product range includes:

Doors - Internal and External  
Flooring - Solid timber, Engineered  
Laminate and Composite  
Windows - Flush casement, Sash  
Stormproof, Tilt and Turn  
Roof Lights - Fakro and Velux

## Specialist Door Production:

Our in-house Door Production Facilities manufacture to customer specifications in terms of material and timescales, offering a fast and efficient service for both the Housing and Commercial sectors. We provide a range of products and services for all door and door-lining applications.

## DOORSETS

Our 'quick-fix' engineered doorsets are designed to make installation as easy as possible:

Finish - A choice of veneered and paint-grade decors.

Sizes - Available to meet your build requirements, in standard and bespoke options.

Ironmongery - Doorsets are complete with or without recessing for locks and ironmongery.

Frames - MDF, foil wrapped MDF, veneered and solid /laminated timber.

Sustainable materials - Products can be supplied as certified, where required.

## Additional features:

Fire Rated doorsets: Doors and materials that fully meet the FR rating, which are manufactured using an approved and certified process, which is audited by BM Trada.

Acoustic options: Purpose made doorsets to meet the appropriate noise control requirements.

Secured by Design: Our products can be manufactured to approved security standards.

Window Screens: We produce panels, to match your doorsets and the design layout.

External Doors: Our range of external doors encompasses all styles and timber species – from a traditional range of hardwood styles to a more contemporary range of Oak veneers.

We offer a full range of patio doors that are brilliant for letting through natural light and can even create the illusion of added space. Doors come as a door set with sliding track included.

## DOORKITS

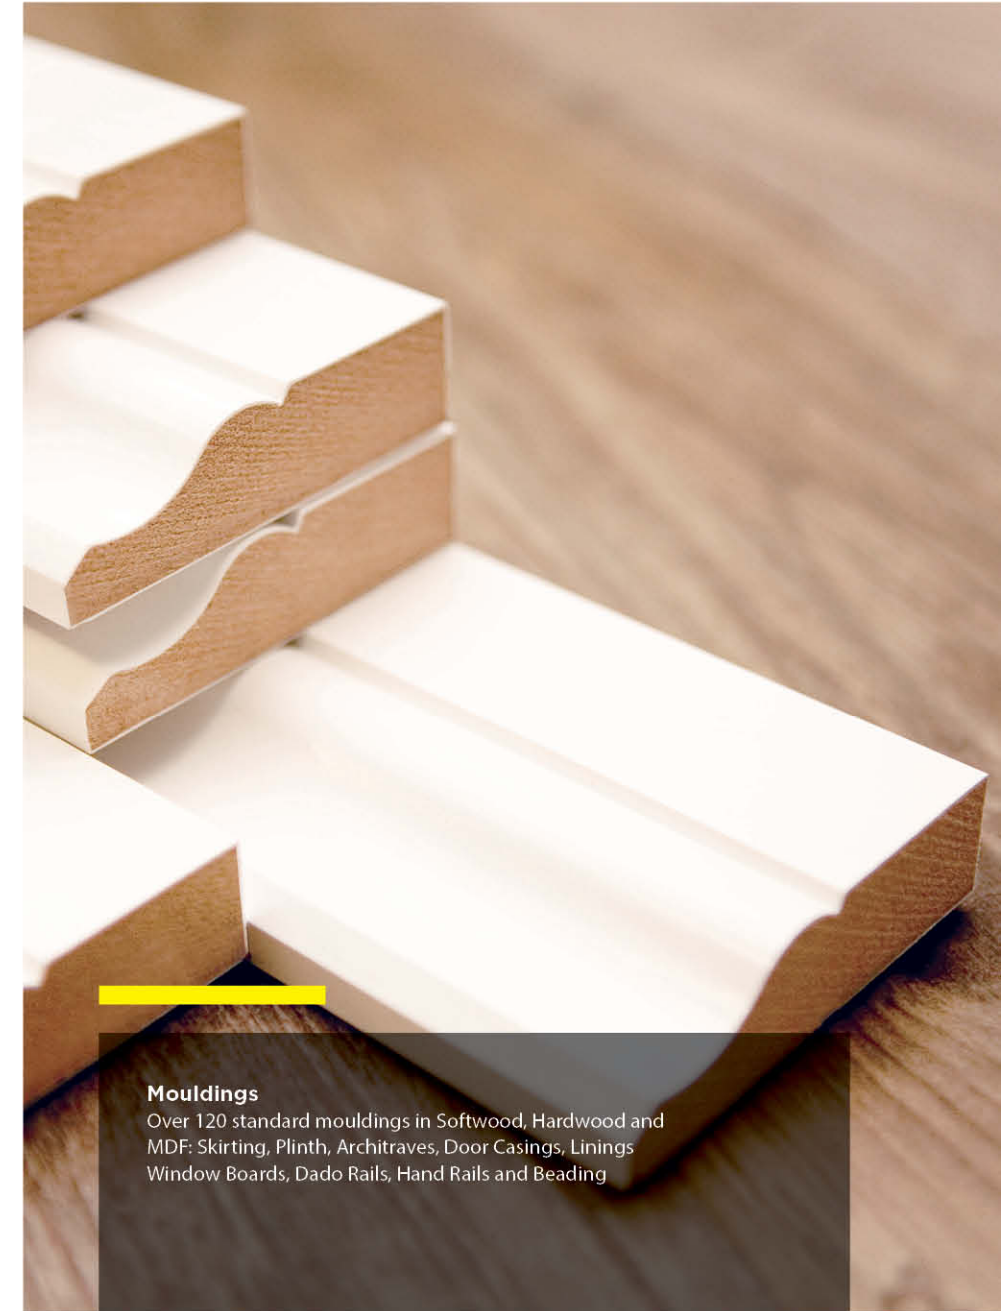

Our Doorkits are designed with ease in mind and delivered to site with the components simply fitting together, allowing for a quick and trouble-free installation.

## Our doorkits offer features:

- A broad range of finishes and designs
- Standard sizes available on short lead-time
- Quality manufactured door-linings, designed to complement the door
- Quick-fix door hinges
- FR product specification, accredited by the BWF/Certifire Fire Door Scheme
- Pre-machined for ironmongery, where required
- FSC® and PEFC® certified products and materials available

## Mouldings

Over 120 standard mouldings in Softwood, Hardwood and MDF: Skirting, Plinth, Architraves, Door Casings, Linings Window Boards, Dado Rails, Hand Rails and Beading

# DECORATIVE SURFACES

WE OFFER A COMPREHENSIVE RANGE OF SURFACE SOLUTIONS FROM THE BEST SUPPLIERS IN THE INDUSTRY.

## HIGH PRESSURE LAMINATES

### Nevamar

A range of exclusive surface products from North America, that offer flexibility in both design and application.

**ARP** - Nevamar Armoured Protection allows surfaces to look better for longer. Patented technology that helps to reduce the effect of wear and tear.

**FRL** - Fibre Reinforced Laminate is the ideal wall surfacing product, providing a panel which is robust with a solid construction, perfect for demanding applications in any type of high-density public areas.

**FRP** - This range of Fibre Reinforced Plastic is a wall and ceiling panel engineered for use in high-traffic areas where moisture, mildew and chemical resistance are a factor.

### ASD

ASD is a Turkish manufacturer with an expansive product range and a reputation for producing premium products. These include:

Backing Laminate, Standard Laminate Postforming Laminate, Metal Laminate Writing Board Laminate, Chalky Board Laminate, Digital Laminate, Flooring Laminate, Phenolic Laminate, 3D Effect Laminate, Holographic Laminate and Colorcore Laminate

### Sonae

Sonae is one of the largest wood-based panel producers in the world, with a great history of producing and developing quality high-pressure laminates that are as beautiful as they are practical.

The Sonae Continuous High Pressure range has been specially selected for the UK. It is drawn from the Sonae Global Innovous series of 150 decors. Completing the range are matching decors in Compact, Melamine-faced core-boards and post-formed worktops. ABS / PVC edging is also available to match each décor.

### Pfleiderer

With over 300 decors, all available in HPL, Pfleiderer provide a range of exciting surface finishes. Many of the colours allow for further design flexibility, as a choice of both structures (finishes) and core-board materials, are available. Their panel range includes the Duropal, Wodego and Thermopal brands, which consist of:

- HPL
- HPL Compact
- MFC
- Solidcore

### Dekodur

Dekodur boast one of the world's largest collection of press-plate finishes, combined with an almost endless supply of raw materials, this means that Dekodur have the capability to produce a laminate out of almost anything. The possibilities are limitless.

The product range includes: Translucent laminate, Digital print, Real aluminium, Mirror laminates, Metallic, Combined material laminate, Wood, Metal, Distressed metal, metal-effect, Gold-leaf and Tree-bark.

# DECORATIVE SURFACES

## Solid Surface

Meganite is a Solid Surface material that provide a highly durable, versatile, hygienic and beautiful acrylic solid surface that can be used in horizontal and vertical applications.

- Unique capacity for thermo-forming
- A colour palette of more than 100 decors
- Bespoke colours available

## Wood Veneer

Leeuwenburgh is a premium manufacturer of real-wood veneers, typically used in high-end applications.

Products available: Flexible Veneer Sheets, Lacquered Veneer and Veneer Boards.

- Large sheet size@3050mm x 1220mm
- Finished and Un-finished options
- Bespoke colours and finishes available

## Worktops

We have our own range of Verve Solid Wood and Laminate worktops

Laminate: cost-effective high performance laminate worktops with a five-year warranty.

- 21 decors
- Breakfast bars:
- 3mm radius (6mm on gloss decors)
- Sealed back edge and front joint
- Matching upstands and splash backs

## Solid Wood

A selection of quality solid-timber worktops in popular finishes including: Ash, Beech, Iroko, Oak and Walnut.

## Specialist Materials

### LightBeton

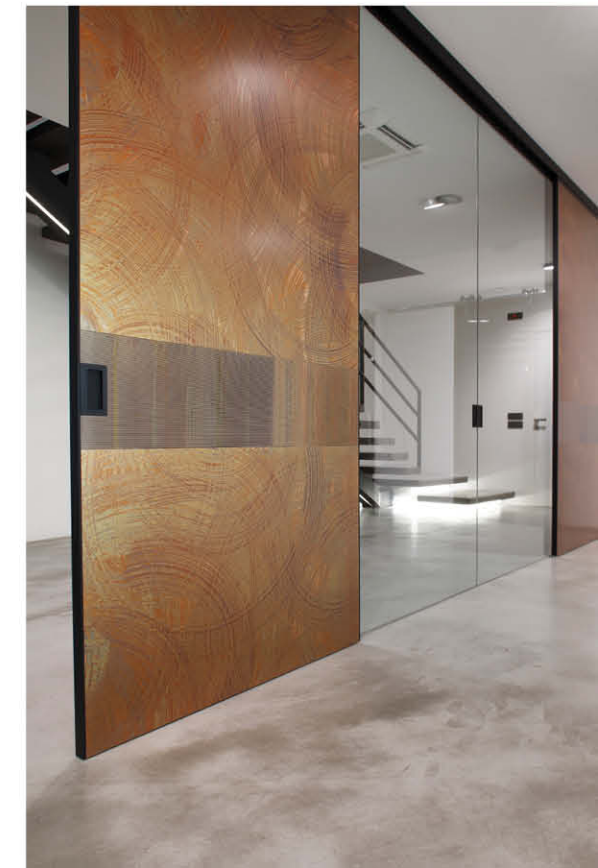

Innovative and lightweight, these 'real' concrete panels can be cut and machined to deliver striking results. Providing designers and architects with a range of possibilities for interior applications.

### Organoids

Innovative and beautiful, these boards and panels are made from completely organic materials such as Barley, Alpine Grass and Wheat.

### VIVIX®

Formica VIVIX®: a range of solid phenolic engineered exterior façade panels which have a decorative surface on both sides.

# LAVER TIMBER SYSTEMS

**LAVER TIMBER SYSTEMS (LTS): OUR ENGINEERED PRODUCTS DIVISION OFFERS DESIGN, MANUFACTURE AND TECHNICAL SUPPORT ON EVERY ASPECT OF TIMBER ENGINEERING, FOR BOTH DOMESTIC AND COMMERCIAL PROPERTIES.**

## Roof Trusses

From simple trussed rafters to timber infills, LTS are able to provide a complete design and manufacture service to domestic and commercial property builders.

- Fabricated to all current British Standards
- Modern cutting and pressing facilities
- Trusses manufactured to a wide range of sizes and specifications
- Dedicated delivery vehicles with mechanical offload

## Steico I-Joists

Due to their characteristic profile, Steico I-Joists offer the following advantages.

- Reduction of thermal bridging
- Lightweight, easy to handle and install
- High dimensional stability through controlled moisture content
- High load bearing capacity
- Strict manufacturing tolerance

- Easy installation of services
- Manufactured to standard depths and widths to match industry standards
- Available pre-insulated to form a solid cross section for ease of installation
- Easy to machine

## Ecojoist

Ecojoist beams consist of parallel stress graded timber flanges joined together with V-shaped galvanised steel webs. This precision-engineered structural component is lightweight, strong and versatile.

Quickly erected - 50% quicker than conventional joists  
 Reduced waste - made to measure  
 Open web system - gives almost uninterrupted access for the passage of services  
 Large fixing area - 72mm wide flanges provide a large area for the fixing of floor deck and ceiling  
 Compatible - Depth compatible with solid joist sizes

- Minimal shrinkage or swelling
- Lightweight construction

## Spandrel Panels

Our Spandrel Panels are supplied as fire and sound rated timber frame panels, made to the profile of the roof. Manufactured from a range of materials including plywood, OSB and plasterboard, the panels can be filled with solid-slab insulation and fire-treated as required.

LTS has also established partnerships with the best manufacturers and suppliers, which means that we can provide a complete range of products, including:

- LVL manufactured by Steico
- Steico Engineered Joists
- Mitek Roof Truss design system
- Glulam products, including beams, feature trusses and portal frames

# TIMBER SERVICES

## Timber Machining

As 'the' timber experts, Arnold Laver has extensive in-house production facilities for the machining and manufacture of hardwoods, softwoods and panels.

We have modern and well equipped factories located in several of our Depots, allowing us to provide an effective and timely service for a range of manufacturing requirements.

Production: we are able to machine timber to the exact needs of our customers, usually on a short lead-time; whether it's standard profiles for architrave and skirting, or bespoke components for manufacturing windows and doors.

Cutting: our range of saws ensures accuracy and flexibility when manufacturing to precise specifications, whilst advanced software helps to provide efficiency and manage costs.

CNC: a Biesse Rover 30 machining centre, together with the latest software, controls the drilling and routing processes for any CNC requirements; delivering accuracy and reliability time after time.

## Timber Treatment

Arnold Laver can offer a range of industrially applied preservative and fire retardant timber pre-treatments for timbers being used either internally or externally.

### Preservative treatment

Preservative pressure treatments will significantly extend the service life of construction and landscaping timbers providing an effective long-term protection against all forms of wood decay and insect attack.

Carried out in our industrial treatment vessels by trained operators, our treatments utilise the very latest TANALITH™ E and VASCOL™ Aqua wood preservatives within the proven high pressure (TANALITH™ E) and low pressure (VACSOL™ Aqua) impregnation processes.

## FR Treatment

Arnold Laver can offer a choice of tried, tested and proven fire retardant treatments for timber and board products wherever fire protection is required by Building Regulations.

DRICON™ is a Wood Protection Association (WPA) approved humidity resistant treatment that is suitable for interior timbers and board products and exterior timbers that will have a weather protecting coating applied. DRICON™ is the only BBA certified fire retardant treatment for timber.

NON-COM™ Exterior is a WPA approved leach-resistant treatment that is suitable for a wide range of exterior cladding timbers. The treated timbers can be used externally without a protective coating. NON-COM™ Exterior is the only fire retardant treatment for exterior cladding that is accepted by the NHBC.

# PANEL & COMPONENT FABRICATION

**OUR DEDICATED GROUP PRODUCTION FACILITY MANUFACTURES BESPOKE PANELS AND COMPONENTS FOR A WIDE VARIETY OF APPLICATIONS. TOGETHER WITH OUR EXTENSIVE RANGE OF DECORATIVE SURFACE MATERIALS, OUR FABRICATION FACILITY OFFERS YOU UNLIMITED CHOICE AND OPPORTUNITIES.**

## Our Services

We offer a completely bespoke service, including:

**Pro-cutting:** on our Giben Prismatic CNC Beam Saw, with Optisave optimisation software; designed to maximise cutting patterns and to minimise wastage.

**Pro-bonding:** using a state-of-art Joos through-feed press-line, delivers a superior bond, compared with static presses. We use premium PVA adhesives and can adhere panels up to 3.6 metres in length.

**Pro-edge:** on our Homag edging machine. A PU glue line is used, giving a superior trouble-free edging application.

**Pro-CNC:** on one of our two modern CNC's. A Biesse Rover 30 pod-based machining centre, plus a Biesse Skill GFT matrix (flat) bed machine.

**Pro-bench:** this covers a multitude of panel solutions, from shaped tops requiring edging, to butt & scribe joints on kitchen worktops and hardwood edges applied to panels.

## Our materials

A complete range of surface finishes and core products from quality manufacturers, including a number of specialist suppliers.

## Estimation Services

Our experienced team are on-hand to provide advice and guidance on all aspects of your project, from helping you choose the right material, through to cost management.

# DOORS & DOOR SERVICING

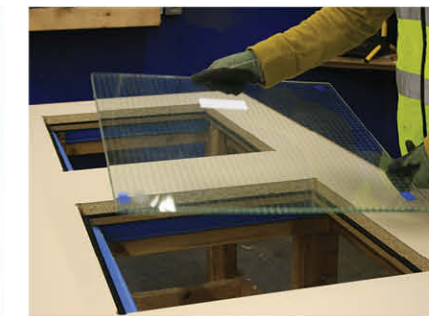

OUR DOOR SERVICING CENTRES OFFER DESIGN, MANUFACTURE AND TECHNICAL SUPPORT ON EVERY ASPECT OF DOOR PROVISION FOR BOTH DOMESTIC AND COMMERCIAL PROPERTIES. THE ENTIRE PROCESS IS CAREFULLY CONTROLLED AND MONITORED FROM THE SELECTION OF RAW MATERIALS, THROUGH PRECISION MACHINING, TO PROMPT DELIVERY ANYWHERE IN THE UK.

## Internal Doors

We supply one of the best ranges in the market today, including products from the best manufacturers in door technology.

As well as a complete range of commodity doors, we offer FD30 and FD60 door kits which can be supplied within 21 days.

In addition to this, more specialist imported doors are available from some of Europe's premium manufacturers.

# CLADDING

## A Single-source Solution

We have developed what we believe is a first-class product and service offer, which combined, provides our customers with a single-source solution for all their cladding requirements. Ranging from advice on materials and designs through to installation, coating applications and planned maintenance.

## Match Your Budget

As timber experts we are able to utilise our extensive sourcing and procurement network to obtain the right products at the right prices. This in turn allows us to offer a broad range of products, which will provide an effective, attractive and affordable offer, which will match your budget.

Our family of timber cladding products includes:

- Pine – affordable and practical
- Larch – durable and attractive softwood
- Western Red Cedar – the number one choice for timber cladding applications
- Accoya – Class One durability cladding
- Thermowood – Thermally modified for increased stability
- Hardwood timber – various durable species including Cumaru, Red Louro and Ipe

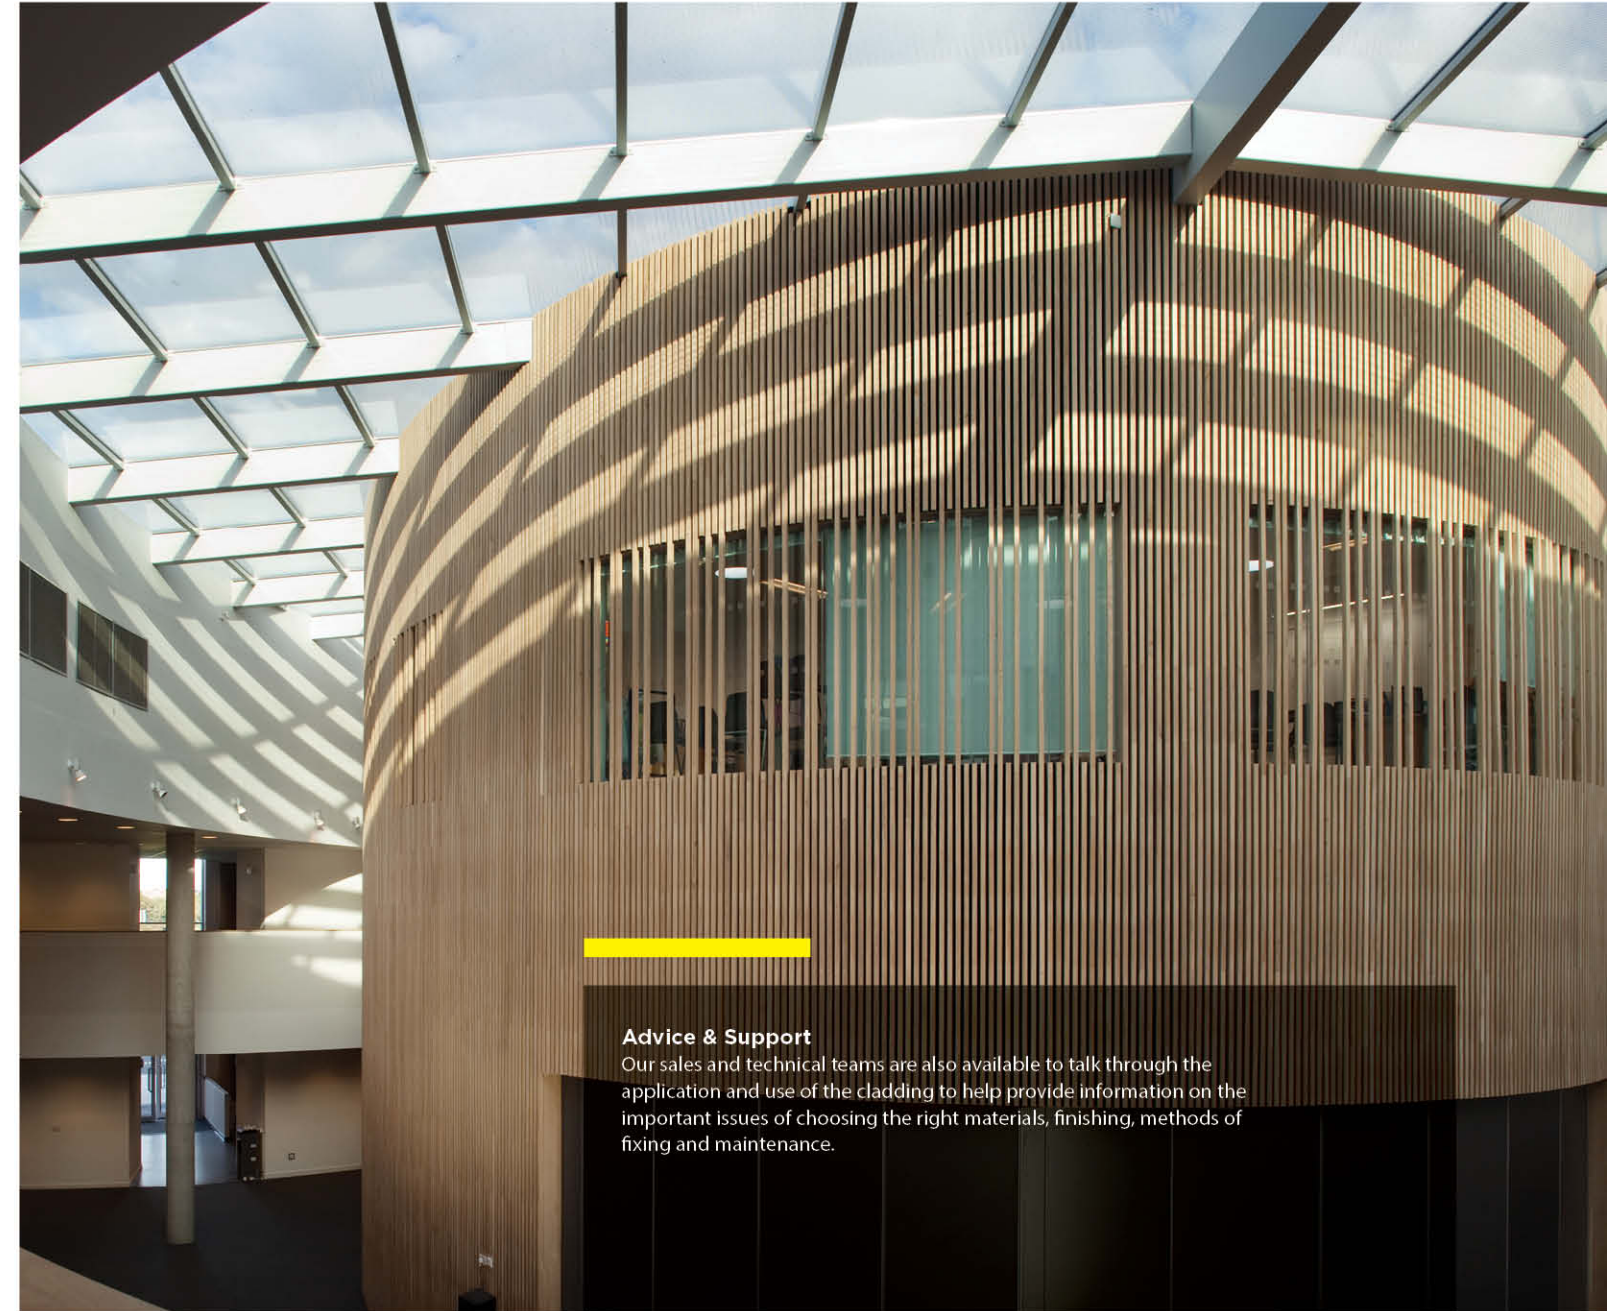

Rainscreen Cladding - VIVIX® is a lightweight solution that combines excellent weather and UV resistance properties for enhanced durability and ease of maintenance. It is a solid phenolic, engineered exterior façade panel that is water, stain and impact resistant.

We produce a range of standard and bespoke profiles to suit all applications, and can offer expert advice to ensure that the most appropriate product is specified for each project.

Additional timber cladding-related services, available from Arnold Laver, include:

Kilning - to provide the optimum consistency and performance.  
 Machining – a large range of standard profiles is complemented by our ability to supply bespoke patterns where required.  
 Fire Treatment – we can supply a range of industrial pre-treatments to both cladding and sub-strates, that will comply with any specification.  
 Fully / Part Finished – we can supply a range of premium factory applied exterior coatings, to help maintain the look and finish of the material.

**We also supply Cedar Shingles, a durable and lightweight material ideal for cladding the roof and side of buildings, such as sheds, garages and summer-houses.**

## Advice & Support

Our sales and technical teams are also available to talk through the application and use of the cladding to help provide information on the important issues of choosing the right materials, finishing, methods of fixing and maintenance.

# KITCHENS

## Next-day Delivery Premium Rigid German Kitchens

### What is Express24?

Express24 is a limited selection of rigid German kitchen units & worktops, appliances, sinks & taps.

### Our Express24 kitchens are...

- Available directly from UK stock.
- Delivered in 24 hours direct to the customer's address, if ordered by 2:00pm
- Easy to order using our Builders Price Book
- Displays on view at Arnold Laver stores in Manchester, Bradford, Leeds, Sheffield, & Hull

### About our kitchens

Our high-quality German kitchens come ready to install with the following specifications:

- Rigid construction
- Soft close drawers & hinges
- Pre-drilled doors for supplied handles

### Premium Appliances and Accessories:

- A selection of AEG manufactured Progress appliances (exclusive to Nobilia)
- Sinks from Blanco & Taps from CDA

### Setting the mood

Express24 allows you to select from two different kitchen schemes - a Light scheme and a Dark scheme, set in Alpine White and Slate Grey respectively. Features include:

- A soft matt door finish
- Matching carcasses, plinths & coordinated worktop

### Why choose Express24?

First and foremost, if you order your kitchen by 2:00pm, you'll benefit from our 24-hour delivery! Your doors, worktops, appliances and sinks will be delivered using Next Day Delivery - all in one drop.

### Here's what else we have to offer:

- A UK stocked German kitchen range - the first of its kind
- Highly competitive prices
- High specification cabinets
- No requirement for a design service
- Ready to install straight from the UK warehouse via a tracked delivery service on dedicated Nobilia delivery vehicles

### How It Works!

1. Simply select a scheme (the carcass colour is matching)  
Please tick which scheme you require.
2. Choose your furniture items  
Please add a quantity in the appropriate boxes
3. Choose appliances, sinks & taps  
Please add a quantity in the appropriate boxes
4. Complete your order details and delivery info
5. Hand over to our sales representative

**Light Scheme**

**Drawer front:** Alpine White  
**Worktop:** Ontario Oak

**Dark Scheme**

**Drawer front:** Slate Grey Supermatt  
**Worktop:** Oak Provence
