Exclusive Surfaces

RIVA ribbed panel

VERIA ribbed panel

The RIVA & VERIA surfaces with the delicate semi-circular rods are perfect for impressive furniture and interior design. Our company philosophy is based on high quality products and absolute customer satisfaction. Flexibility is our strength. Whether it be standard or cut to size, raw or lacquered, small or big orders, our flexibility will meet your needs.

Our products are being used in the furniture, store and display industries, interior architecture, yachts and camper interiors and also in private applications. The application possibilities are almost unlimited.

RIVA (HDF) as furniture fronts painted in a refreshing orange

RIVA and VERIA panels are a natural wood product, therefore natural color and/or structural variations in the wood surface may apply. This does not constitute as a reason for complaint. The reproduction of colors can vary depending on the output device. The illustrations are not colour binding and partially reduced or enlarged in size.

DESCRIPTION

RIVA and VERIA panels are available in a 3mm 'Flex' option which can be mounted on to curved or flexible surfaces.

RIVA & VERIA panels with 10mm or 19mm thicknesses are backed onto an MDF core panel, with the reverse side veneered with same wood type as the front face of the panel. The surface of the panels is raw, sanded and ready for finishing.

Other core panel types (Chipboard, Plywood, Lightwood or other instead of MDF) and other thicknesses are available on request.

Tailor-made panels for door fronts or wall claddings and panels with edge-banding, drill holes and surface finishings are also available on request (MOQ 50 sqm).

The RIVA and VERIA composite panels are not tested for fire protection and are only suitable for the dry indoor use.

The flexible Version of the RIVA & VERIA surfaces with 3mm thickness are also suitable for rounded surfaces.

AVAILABLE STANDARD DIMENSIONS

Sizes (Length x Width):

2,500mm x 600mm
2,500mm x 1,200mm

Sizes (only Bamboo):

2,400mm x 600mm
2,400mm x 1,200mm

Thicknesses:

3mm, 10mm, 19mm

Structure direction:

The direction of the ribbed surface is lengthwise on 2,500mm panel (bamboo 2,400mm)
The direction of the ribbed surface is also available across the width of the panel on 600mm and 1,200mm panel widths.

AVAILABLE WOOD SPECIES

Wood species:

HDF/MDF raw
