

NATIONAL TIMBER GROUP FACT SHEET

National Timber Group is the largest independent timber distribution and processing group in the UK. The Group was created through the acquisitions of market-leading brands Thornbridge, NYTimber, Rembrand and Arnold Laver. It has now expanded to include Orchard Timber Products and Hymor

Timber. The Group serves a diverse customer base including joiners, housebuilders, and contractors, and is a favoured supplier of large-scale infrastructure projects. With extensive warehousing, processing and distribution capabilities the Group can provide customers

across the UK with a full range of the highest quality timber, panel, decorative surfaces and engineered wood products supported by comprehensive timber knowledge and specialist expertise.
