Inspirational catalogue

# Finsa

At Finsa we have been dedicated to industrial wood processing for almost a century, designing and manufacturing decorative and technical solutions for your spaces.

We work daily to meet the needs of the interior design and habitat sector by manufacturing and transforming products derived from wood and solid wood processing. This is a transformation process whereby wood does not lose its qualities, but rather gains greater efficiency through an industrial process based on the circular economy system.

Finsa has design in its DNA - not only as a fundamental part of the creation of its products, but also as one of its strong points of brand identity. This tool seeks to become an inspirational guide, advancing the basic lines that will guide the design and materials that will be part of the spaces we will inhabit in the coming years.

**We invite you to connect with Finsa**

# 1

## Introduction

---

# 2

## Inspiration

---

# 3

## Materials

# Sustainability

At Finsa we work to maintain and develop circularity in our process and products.

## Certifications

---

### Environmental Product Declaration

Document that communicates the environmental impact of a material during its life cycle, from the raw material extraction process, transport to the manufacturing plant and product manufacturing process.

### Cradle to cradle

Multi-attribute certification, directly linked to Sustainable Development Goals (SDGs), demonstrating that a product is safe and circular.

### The Material Health Certificate

This is a materials analysis based on the Cradle to Cradle standard health assessment methodology. This certification seeks to promote healthier and safer products.

### EUTR

As a sign of transparency, we voluntarily certify compliance with EU regulation 995/2010 regarding the legal origin of wood.

### FSC®

We have implemented a PEFC/FSC® chain of custody certification system that allows us to supply certified wood products to customers which are 100% recyclable and contribute greatly to the fight against climate change. This forestry certification promotes certified wood, and to this end we certify our farms and help our suppliers achieve certification.

### ISO 38200

This is an internationally recognised standard for the transmission of information along the supply chain of wood and wood-derived products.

## Sustainable building certifications

---

### BREEAM & LEED GREEN, WELL and LBC

Our wood solutions help meet the requirements of sustainable building certifications. Furthermore, our products are validated by Green Building Council España and can be queried on their Materials Platform.

# Connect with Finsa

---

**Finsa.com:**  
new website with  
a renewed look and feel

With an easy-to-navigate structure, it allows you to easily, quickly and intuitively find the required information. We have created new functions whereby we present all our products and services, not to mention Finsa Solutions — a platform that will allow you to make decisions faster, bring your ideas to life judiciously and request samples of various designs and baseboards, all with a click of the mouse.

---

**Finsa room simulator:**  
compare and choose  
to your liking

Making interior design decisions and advising your clients on trends has never been easier: compare different designs from our range on your screen in the Finsa Room Simulator.

How does our Room Simulator work? Thanks to the "Comparison" mode, you can display two designs in the same room configuration at the same time. The detailed view allows you to see the effect of the design on the corresponding finish. Do you need to use and share those results outside our digital generator? You can create a report with all the details of the materials sampled for each render.

---

**Sample service:**  
as and when you want

Seeing is better than imagining. We can provide you with the 12Twenty swatch to help you discover the wide variety of our decorative surfaces. And if you want more detail to help make the final decision, our Sample Department can provide samples in DIN A4 format.

---

**Technical  
Consulting Support:**  
we are part of your team

Finsa's Technical Consulting team is made up of professionals with extensive experience in the area of architecture and (interior) design projects. Their job will be to accompany you during your projects to advise you on wood solutions. We can offer recommendations regarding partners who can support the execution of the work, such as specialised distributors, industrialists and installers. In addition, we work on portfolios and other tools where we compile projects that use our materials to show the applied product and inspire you in your own work.

# 12Twenty Melamine

The 12Twenty Melamine range is a collection of 32 decors designed with makers and creators in mind.

Discover the whole range on the next pages.

Formed by covering an MDF core with a decorative resin-impregnated paper, our antibacterial melamine-faced MDF is suitable for use in high quality furniture and interior design projects.

The core of the material is composed of wood fibres, giving a flat and smooth surface, high density and stability, which makes it excellent for processing.

The board sizes come in 2440 x 1220 (8x4) making it easier for you to handle, store and transport.

Available in the UK across our network of FINSA Stockists.

## Recommended use

General furniture and paneling for offices, kitchens, bathrooms and other.

## Laminate / edge bandings

### Laminate / edge banding

To guarantee a correct match with our decorative melamine, we can offer both edging and laminate. Edging in stock in 22x1mm PVC. Laminate forward order on a lead time.

## Advantages

Easy machining

High-performance fixings

Clean cuts

Resistance to bending

Resistance to impact

Certified antimicrobial surface (ISO 22196)

## 020 Blanco Medio

The go to white. A safe choice for a wide variety of applications. Available from stock with a mini pearl texture (Soft III) or without any texture at all (Matt).

## 71A Gris Gu

Gris Gu in Soft III finish is a very dark, almost black, decorative grey.

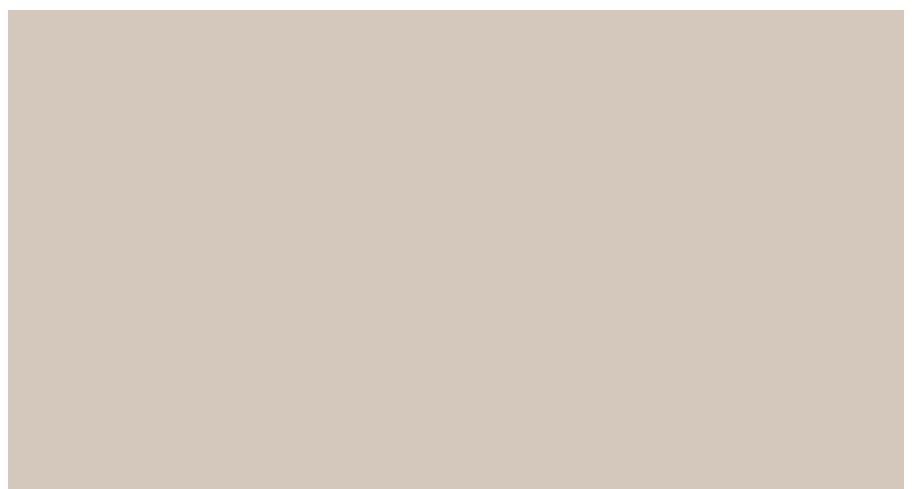

## 15R Gris Coco

Gris Coco provides a medium grey with a warm tone. Available from stock with Soft III and Nude (leather look-a-like) texture.

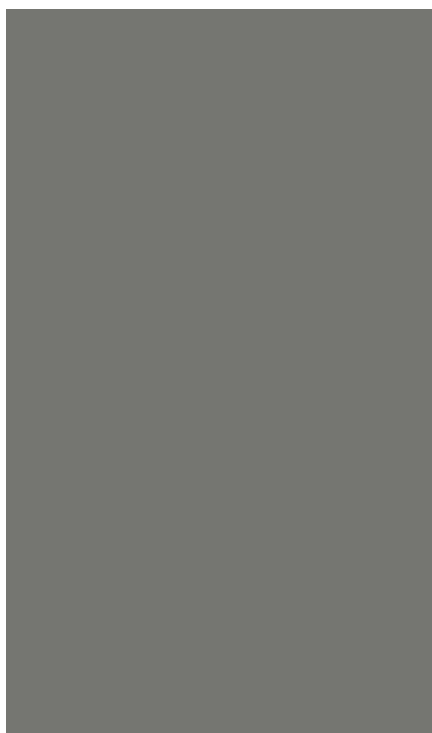

## 192 Gris Azulado

Gris Azulado is an excellent choice when it comes to grey melamine. Comes with Soft III texture.

## 09F Gris Tormenta

Gris Tormenta is the perfect decor to bring a touch of dark grey into your project without being too intense.

## 209 Maple Colonia

Maple Colonia comes with an Atlas texture. The Atlas texture is a finish that looks and feels like wood with a more rustic character.

## U12 Natural Grey

Natural Grey in Soft III finish presents a vibrant colour, designed for spaces with a markedly youthful character: children's furniture, contract spaces and furniture with a jovial look.

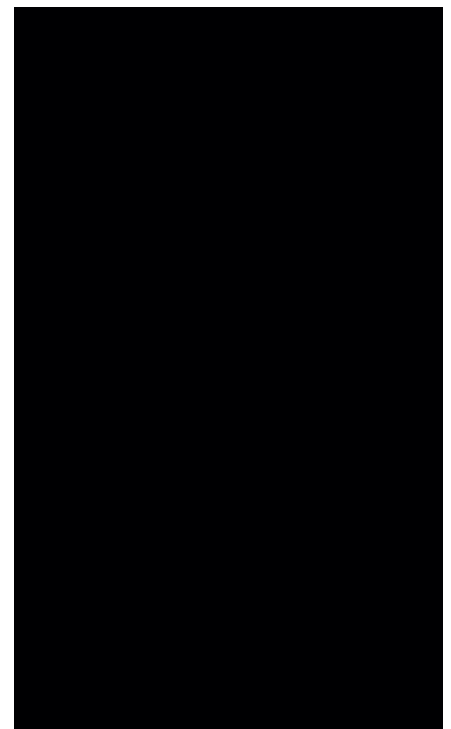

## 84V Roble Denver

Roble Denver in Atlas finish is an oak design in a medium, natural wood tone. This decorative pattern combines crowns, knots and cracks in an elegant way. It is a safe bet for any collection.

## 231 Negro

Negro with Soft III finish has a black shade.

## 12G Lino Cancún

One of the best selling Finsa decors. A beige decor with a Textil finish really gives the impression of a luxury woven finish.

## 45E Pewter

A grey-ish metal-like decor with Soft IV finish, especially created for the 12Twenty Melamine Selection.

## 51S Caledonian Oak

Caledonian Oak in Segra saw-cut finish is a slightly greyish design. Its soft rustic character and light tones make it ideal for functional style furniture.

## 9AR Hickory Frida

Hickory Frida in Boreal finish is a light and soft wood design from the walnut family. It is a renovation of this commercial design, where colour and structure are in balance. At a decorative level, it can provide a certain neutrality.

## 49D Lissa Oak

Classic oak design with a refined Mesura texture: simplicity through the combination of different sizes and depths. This helps achieve a renewed oak grain, discreet, but with a silky touch and a constant brightness.

## 41G Roble Hera

Roble Hera in Segal saw-cut finish is a natural oak design with rich colour contrasts.

## 14C Toffee

Toffee with Soft III texture is a very deep brown, close to black.

## 366 Haya Rimesi

A classic beech decor, available in Atlas finish.

## 910 Roble Natural

A quarter cut oak decor with a Mesura woodgrain texture.

## 1AT Mármol Hades

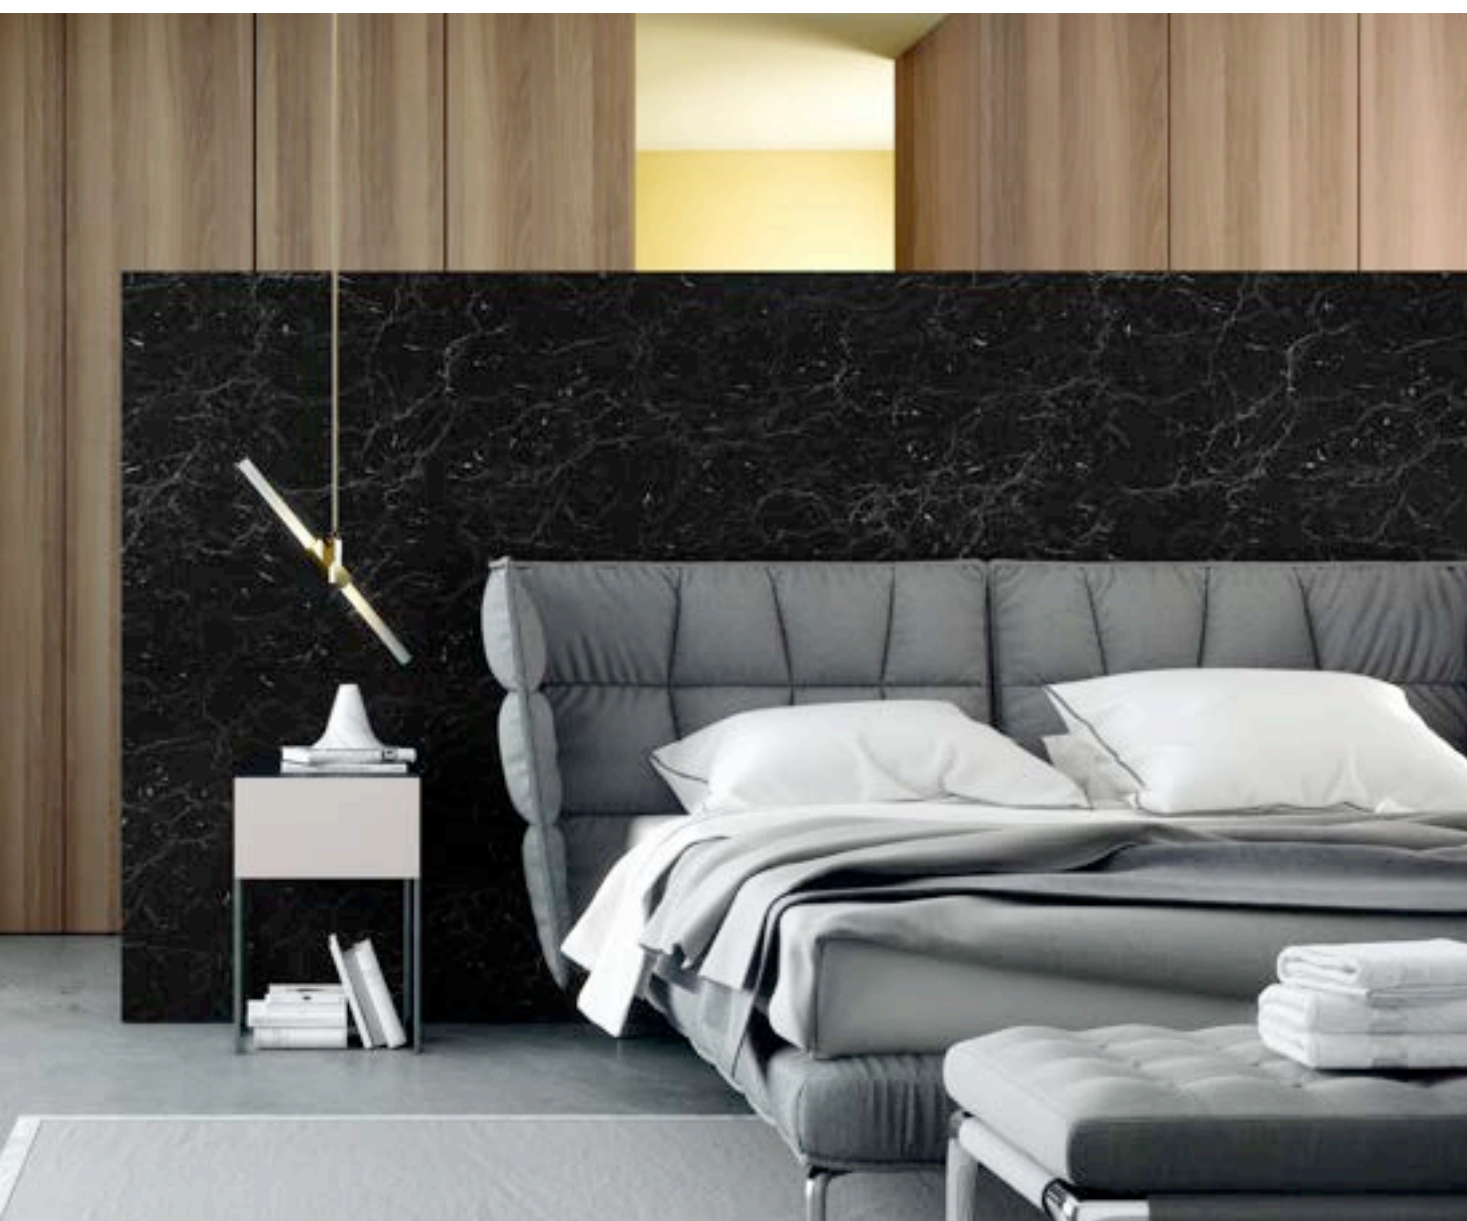

Mármol Hades in Teide finish has a dark grey, almost black shade. Its white veins make it a very elegant design.

## 81V Nogal Siena

Nogal Siena in Balm finish is a composition of various species of walnut wood. Its marked, planked character generates a very elegant and natural walnut.

## 17N Roble Joplin

Roble Joplin in Mesura finish is an oak design with pickled pore that has a grey shade.

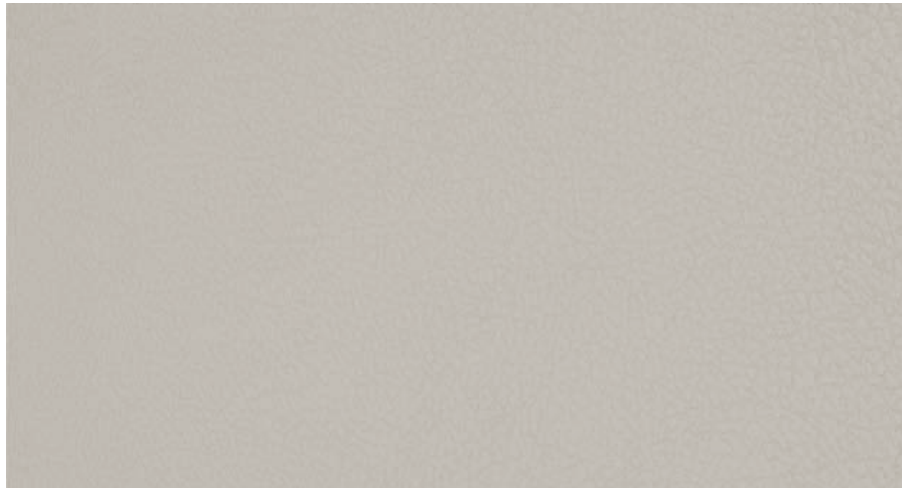

## o3C Nogal Canaletto

Nogal Canaletto in Mesura finish provides a classic walnut design mix between quarter cut and crown cut structures.

## 15R Gris Coco

Gris Coco with a Nude texture has a leather look and feel which makes it perfect for surfaces like tables, desks as well as interiors of cabinets.

## 03C Nogal Valentina

Nogal Valentina in Mesura finish is a walnut design that provides the most vivid tone of the entire collection. It has large crowns and a strong personality.

## 20N Roble Sinatra

Roble Sinatra in Atlas finish is a dark brown quarter cut oak design.

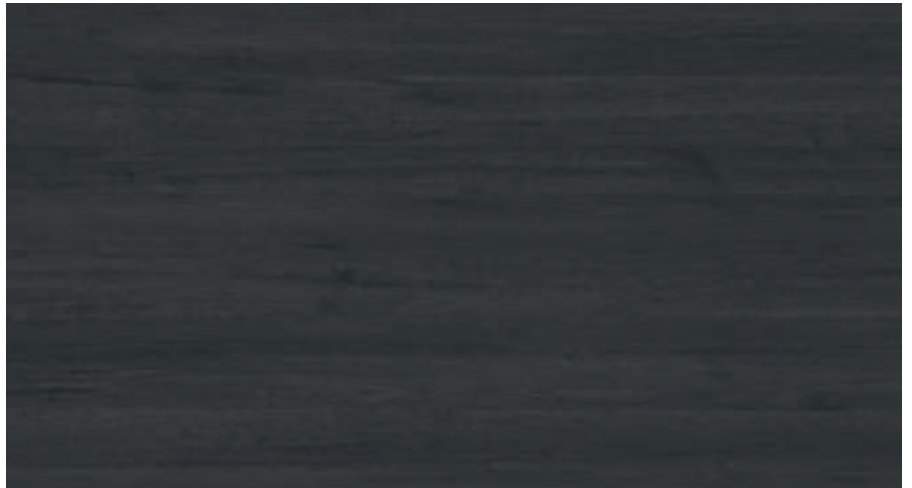

## 98G Textil Cuero

Textil Cuero in Nude finish is a leather-inspired design. It stands out due to its silky and velvety feel in combination with the nude finish.

## 75V Roble Azabache

Roble Azabache in Atlas finish is an oak design with a deep grey, almost black tone.

## 25V Roble Virginia

Roble Virginia in Mesura finish is a soft oak grain and white tone design.

## o6F Cemento

Cemento is the perfect decor to mimic concrete on an industrial style interior. It is paired with Teide finish for a rough look and feel.

## 97Q Espiga Pimienta

Espiga Pimienta in Textil finish is a herringbone tweed design in a dark grey tone.

## 246B Canvas Greige

Canvas Greige range in Ari finish is a design developed from an antique fabric. It naturally integrates the imperfections and wear suffered by the fabric over time.

## 4AE Roble Eternity

Roble Eternity in Atlas finish is an evolution of rustic and elegant designs. Its dark greyish tone has the character and essence of vintage wood with knots and half crowns.
