ABOUT KÄHR'S

Kährs has been working with wood for more than 160 years and is today one of the oldest and most innovative manufacturers of engineered wood floors in the world. Kährs' long history is lined with a series of innovations that have shaped the entire global wood flooring industry over the years - from the invention of the multi-layer board to the glue-less Woodloc® locking joint.

The lightly smoked finish on this charcoal brown, 3-strip Kährs Oak Soil floor from the Harmony Collection creates a rich, sumptuous patina. Each board is carefully brushed to bring out the natural woodgrain and enhance the texture of the oak.

Harmony - the comfort of home, with its warm, nurturing atmosphere. A place to retreat, awash with mellow tones that calm the body and soul. The subtle, rich tones of Kährs Harmony Collection are designed to complement all interior styles and to create a sense of well-being.

Kährs recommend a second-coat of oil is applied to the floor once laid to seal into the joints.
