Sustainable timber specialist
Helping you to build better

ABOUT US

National Timber Group is a timber specialist, providing national coverage through our regional brands. The breadth, depth and quality of products we provide delivers a great service proposition to our customers. Our geographical reach and extensive supply chain ensure we deliver what you need, when you need it.

Our experienced Branch staff are timber experts, whilst our business systems and processes help to make it easy for our customers to build.

As timber experts we have a greater range of specialisms

- Extensive stock with higher availability levels
- Design capabilities which enable bespoke production - within our specialist manufacturing facilities across the UK
- Manufacturing excellence in areas such as engineered roof systems and door production

As a specialist value-added timber distributor we serve our customers on a national basis working on infrastructure projects across the public and private sectors. Examples include the London 2012 Olympics and Crossrail, through to ongoing activities such as Hinkley Point and HS2.

All the Group's businesses are very well-regarded and have a long trading history. Our brands are highly thought of across the industry.

National Timber Group: from the ground up, a natural choice.

Sustainable & Certified

Our Group Policy is dedicated to continually improving our environmental performance, preventing pollution and minimising the impact of our operations.

We strongly believe that it is our corporate and social responsibility to help preserve the world's forests and promote effective forestry management

As a responsible business we are committed to:

We are active members of key industry bodies including PEFC, TDUK and the BWF. We are dedicated to providing goods from legal and sustainable sources, for example our trading brand Arnold Laver holds both FSC® (TT-COC-001673) and PEFC (BMT-PEFC-0112) Certification.

Our products meet the UK Government CPET approved timber procurement policy. As members of the Timber Trade Federation we are committed to responsible sourcing and only offer fully certified timber either PEFC or FSC® Certified.

Health & Safety

Health and Safety

ZERO HARM. SAFER TOGETHER.

Keeping our colleagues safe in their working life is the most important thing we can do.

Our initiative, ZERO HARM. SAFER TOGETHER. forms the basis of all the operations and activities across every branch and site that we manage.

This ongoing programme has been developed to ensure that every colleague, customer or visitor to each of our locations arrives safely, works safely and returns home safely. The objective is to achieve zero accidents across the National Timber Group and a safer workplace for everyone.
