fencing

TRANSFORM YOUR GARDEN INTO A PRIVATE RETREAT WITH OUR STUNNING SELECTION OF GARDEN FENCING SOLUTIONS.

Whether you're drawn to the timeless warmth of wooden fence panels, vertical slats, or the sleek sophistication of concrete panels, we have the perfect fit for your outdoor space. Choose from a variety of heights, including 3ft, 4ft, 5ft, and 6ft, to suit your needs. And with our budget-friendly prices, you can achieve stylish and durable fencing without overspending.

Incised Fence Posts

The following core range of Incised fence posts is available either green or brown pressure treated.

WIDTH/DEPTH	LENGTHS
75mm x 75mm	1.5m, 1.8m, 2.1m, 2.4m, 2.7m, 3.0m
75mm x 100mm	2.4m
100mm x 100mm	1.8m, 2.1m, 2.4m, 2.7m, 3.0m

(Other specifications are available on request.)
The James Jones Incised product range complements our extensive choice of quality fencing products available.

Rails, Slats, Ranch & Gravel Boards, Featheredge Boards

The entire James Jones fencing range is available either green or brown pressure treated.

Cut & Treat

Every time pressure preservative treated timber is cut or notched during installation, the exposed surfaces must be further protected with an appropriate brush-on end grain preservative to maintain the integrity of the performance and the conditions of the warranty.

LEDGED & BRACED PINE GATES

DuraPost[®]

BY BIRKDALE

DuraPost is a great alternative to a timber or concrete fence posts. Built from galvanised steel, it's lighter while offering both durability and strength.

Provides a stylish, secure and strong framework designed to work with panels and boarding. DuraPost has been durability tested to EN 1794-1-2018 with wind speeds of up to 110mph (static load tested to 625kg).

Up to 25 Year Guarantee.

DURAPOST STEEL FENCE POST SYSTEM

BUILT TO LAST

DuraPosts are so easy to handle, with pre-drilled holes, they can be easily installed by one person

DuraPost can be used to create:

- Closed board fencing
- Panel Fencing
- Hit & Miss Fencing
- Composite Board Panels

DuraPost supports the installation of our Composite cladding boards (as fencing panels on pg. 24-25.)

Available at selected branches.

Designed by industry experts and trusted by homeowners and professionals.

DuraPost is available in 4 colours.

VENETIAN FENCE SLATS

BUILD YOUR OWN VENETIAN SLAT FENCING

Venetian slat fencing brings a sleek, contemporary touch to any garden, serving as both a stylish feature and an effective privacy screen.

Its post-and-slat design allows for seamless installation in nearly any space, making it a versatile and modern choice.

Additionally, slats offer excellent flexibility in stains and finishes, ensuring a perfect match for any setting.

REDWOOD DECKING

Our Redwood Decking is Slow Grown, Imported, high quality Pine

Our own standard timber decking is sustainably sourced, imported, and machined in house, at our mill facility in Grangemouth.

Combining strength, durability, and style, this redwood decking is the ideal choice for creating a sturdy outdoor space. Perfect for creating a safe, durable, and attractive decking area that will stand the test of time. Dimensions: 32x150mm (finished size: 28x145mm).

- ♦ Premium redwood decking board with a castle/reeded profile
- ♦ Treated to UC3 (above ground contact) for protection against weather, rot and pests
- ♦ Planed and finished size: 28x145mm for a smooth fit
- ♦ Certified for sustainable sourcing
- ♦ Ideal for exterior use above ground – perfect for garden decking and outdoor projects
- ♦ Initial green tint weathers and can be customised with decking oils

Available in mixed lengths Redwood decking is a durable and beautiful choice for all of your outdoor space. Offering an eco-friendly benefit due to its sustainability and it's natural resistance to rot due to the tannin levels within the wood. Using the appropriate stain, redwood can have it's colour customised to suit any garden.

WJ DeckWright® Decking

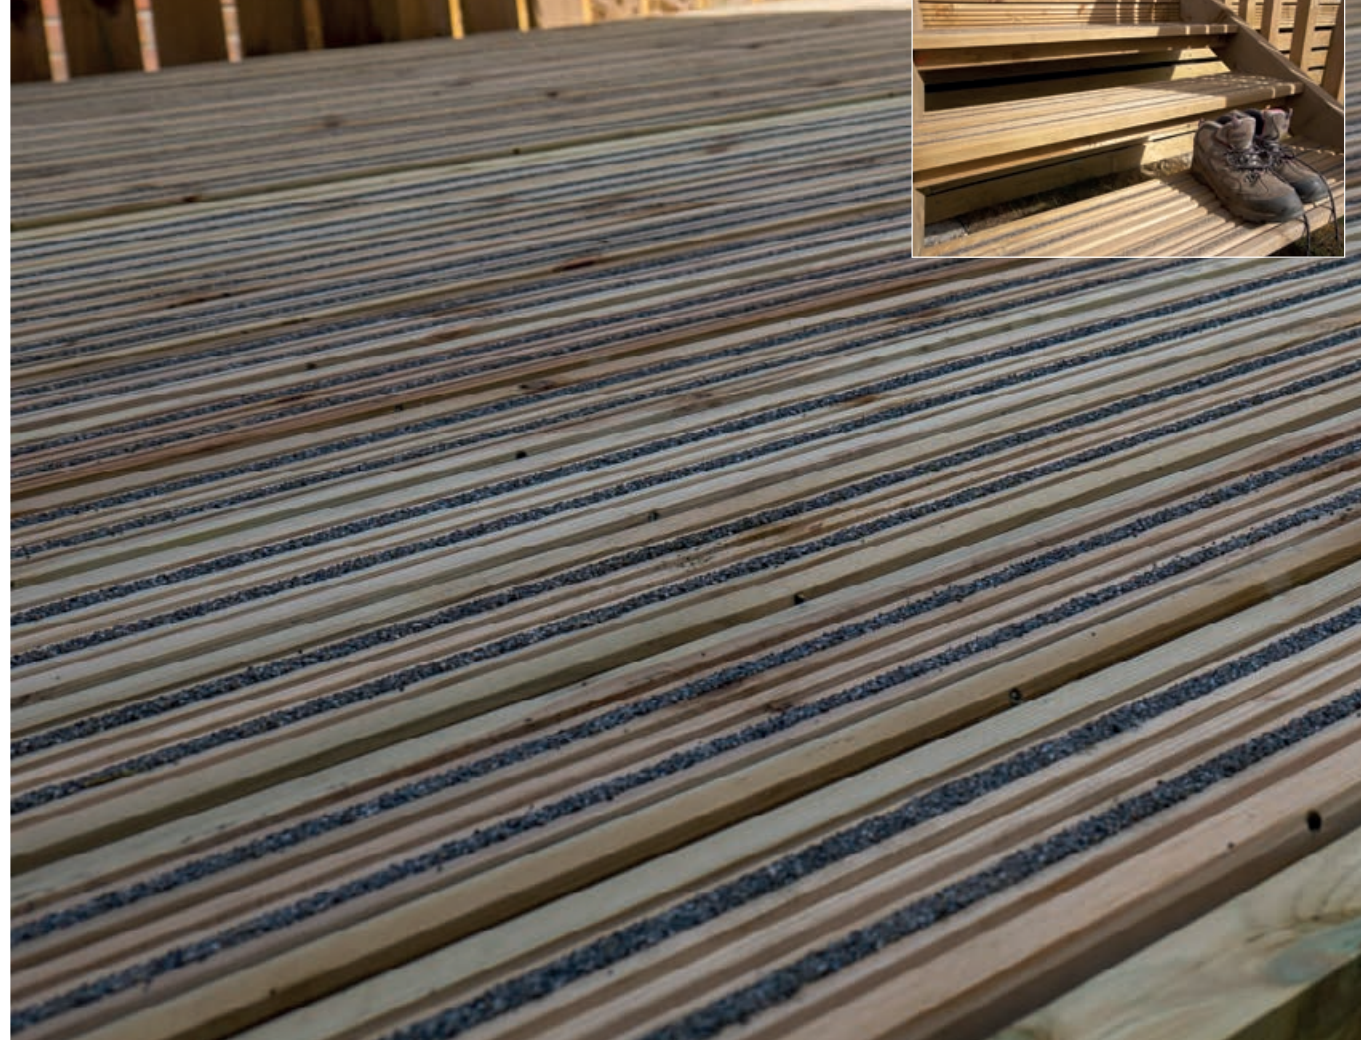

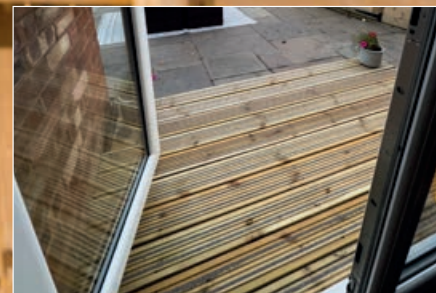

DeckWright anti-slip technology was (and still is) an answer to a problem faced by many decking owners in the UK.

The boards are of the highest quality offered both treated and untreated. The anti-slip is independently tested and approved by the Health & Safety Laboratory in Buxton, in accordance with British Standard BS 7976: 200.

A resin and aggregate formulation fills at least one of groove, sitting slightly proud of the timber. This creates a sturdy grip underfoot, significantly reducing the risk of slipping – even when the decking is wet. Anti-slip timber decking is a long-term, professional solution and won't deteriorate over time. In fact, the grip is as good after ten years as it was on day one.

By choosing factory manufactured anti-slip decking you won't compromise on the look of your deck either. The resin and aggregate appears subtle, ensuring you still enjoy the pleasure of your timber expanse. Anti-slip decking gives you 365 days a year use, despite rain and ice.

HD DECK® DUAL COMPOSITE DECKING

Deck Board Size: 22.5 x 143 x 3600mm

HD Deck Dual is a wood-grain composite decking system with a reversible two-colour option, providing the opportunity to lay a deck with contrasting colours to create a bespoke finish.

With an unrivalled likeness to timber, the natural wood grain not only looks and feels great, it also offers maximum performance against stains.

TIMBER TREATMENTS

ACCESSORIES

TREATED TIMBER POSTS

Our treated timber posts are suitable for domestic, agricultural and industrial applications.

To achieve a long service life we treat all posts using a high pressure process with a choice of either green or brown finish.

CONCRETE SLOTTED FENCE POSTS

Concrete is lightweight, reliable and easy to handle. It is specifically designed to last longer and stand against severe weather conditions.
2745 x 110 x 90mm
2440 x 110 x 90mm

Concrete Gravel Boards also available at selected branches

FENCEMATE

Sets within 5 to 10 minutes, allowing for quick and efficient installation of fence posts. Suitable for all types of posts, including wood, concrete, and metal. Supplied in durable, recyclable, tear-resistant 20kg bags

POSTCRETE

A rapid-setting mix of cement, silicates and hardeners. It's durable and ready to use, formulated for fixing wooden, concrete and metal fence posts. No mixing required, sets in 5-10 mins and is supplied in a weatherproof, tear resistant plastic bag.

TOOLS

We supply all the necessary tools and equipment for you to complete your job with all the top brands and highest quality equipment at affordable prices.

FIXINGS

All the necessary fixings for sleeper, decking and cladding you could need to finish your clients job.

SHEDS

WHO DOESN'T NEED THE PERFECT SHED?

Sheds are so versatile. From simple storage to a garden hideaway. We even do dog kennels and runs! Built to last, robust and treated to withstand the elements, our wide range of sheds will fit the bill for any requirement or budget.

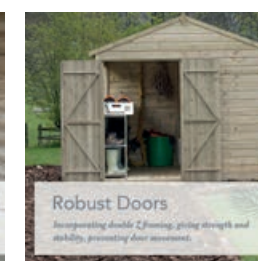

Choose from glazed or unglazed, a wide choice of door configurations, apex or pent roof and you'll find that we have a shed that will be perfect in any situation.

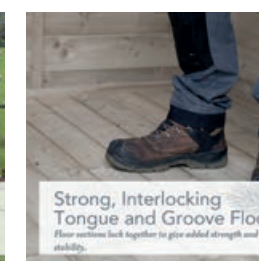

Security Enhanced as Standard
Traditional pad lock, with tamper proof screws. Hidden door security hinges that cannot be removed from the outside.

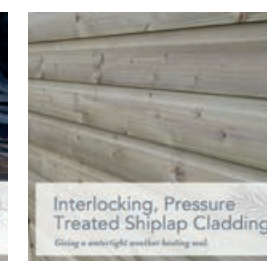

Enhanced Timber Framing
Thick timber framing increases shed structural stability, with over 30% more timber content than most other sheds on the market.

Robust Doors
Incorporating double glazing, giving strength and stability, preventing door movement.

Strong, Interlocking Tongue and Groove Floor
Floor sections lock together to give added strength and stability.

Interlocking, Pressure Treated Shiplap Cladding
Giving a watertight weather beating seal.

HARDIE® PLANK
FIBRE CEMENT CLADDING

Hardie® Plank fibre cement cladding will stand the test of time, ensuring major advantages over alternative solutions such as uPVC or wood cladding. Fibre cement façades protect against fire, moisture, mould, and pests. Conversely, uPVC cladding is prone to colour fade and becomes brittle over time, whilst wood can present a fire risk and is also prone to moisture damage.

HD CLAD PRO™ COMPOSITE CLADDING
SIZE: 22.5MM X 136MM X 3600MM

HD Clad Pro™ provides a low maintenance, durable alternative to traditional timber cladding that is available in a range of natural colours. The invisible clip fixings and trims allow for an uncomplicated installation which will transform the exterior of residential and commercial properties alike.

It can be installed vertically or horizontally

ethical, long lasting and low maintenance alternative to timber_

HD Clad Pro™ is made completely from recycled plastics and FSC® hardwood flour which combine to produce a high quality finished product that outperforms traditional treated timber.

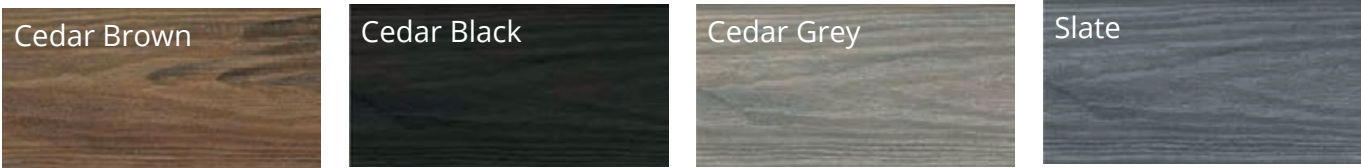

HD Clad Pro™ provides a low maintenance, durable alternative to traditional timber cladding that is available in a range of natural colours.

Whether you're looking to transform the exterior of residential and commercial properties, garden buildings or even thinking of a new contemporary option for a garden fence; The HD Clad Pro™ system offers flexibility and style whilst also being environmentally friendly, made from 100% certified hardwood flour and recycled plastic.

- Key Benefits**
- ♦ ANTI-FUNGAL
 - ♦ LOW MAINTENANCE
 - ♦ DURABLE
 - ♦ MULTIPLE APPLICATIONS
 - ♦ FSC® CERTIFIED TIMBER
 - ♦ COMPLETE SYSTEM

Available in 4 shades.

Timber cladding

- ♦ A sustainable material that can last for decades
- ♦ Timber cladding can be made from many types of wood, including oak, larch, and Western Red Cedar
- ♦ Timber cladding can blend in with natural surroundings

Fiber cement cladding

- ♦ A composite material made from cement and cellulose fibers
- ♦ Fiber cement cladding is fire-safe, long-lasting, and low maintenance
- ♦ Fiber cement cladding is available in boards, panels, or shingles

Composite cladding

- ♦ A mixture of recycled plastics and timber offcuts make composite an environmentally sustainable option
- ♦ Durable and low-maintenance
- ♦ The makeup of composite cladding ensures that the finish will continue to look as good as it did the day it was installed for years to come
- ♦ Composite cladding will absorb less water than timber cladding, will not warp in the heat or wet weather, will not rot, or splinter, and is not susceptible to termites or other pests that may plague wooden products.

Cladding Options

- Argento
- Scottish Larch
- European Larch
- Canadian Western Red Cedar
- Redwood Vths
- Redwood Unsorted
- Hardwood
